(9) Resolution by the Government of India in the Financial Department, No. 1911, dated 18th March 1878, with the appended statements published in the *Gazette of India* Extraordinary of that date.

(10) Resolution of this Government of the 29rd instant, reviewing the estimates of Local and Trust Funds for 1878-79.

(11) Statement of Provincial Revenues and Expenditure appended to this Resolution.

THE Lieutenant-Governor has already in separate Resolutions passed orders upon the estimates under the various heads of Provincial Services for 1878-79, and upon the estimates of those funds which have hitherto constituted the Provincial Reserve. After these orders were issued, the Government of India acceded to the proposal of this Government to amalgamate with the ordinary service heads all the receipts and charges of those funds the surplus balances of which are entirely at the disposal of the Provincial Government for provincial purposes. Under this arrangement the Provincial Reserve Fund, as a separate fund, must cease to exist; and this alone would render it necessary to revise the estimates of Provincial Services, so as to exhibit the effect of the amalgamation, which takes effect from the 1st April 1878. Besides this, however, the Government of India has by its Financial Resolution No. 1911, dated the 18th instant, and the appended papers, made certain further important modifications in the form and matter of the Imperial estimates, which it is incumbent upon the Provincial Government to follow.

2. In order to explain the effect of the changes referred to in the foregoing paragraph, it may be convenient to recapitulate briefly the various classes of estimates and accounts with which the Provincial Government has hitherto had to deal. There are *first* the estimates and accounts of *Imperial Services*, that is to say, of those branches of revenue and expenditure which have not been made over to provincial control and management. In its relation to these services the Local Government is in the same position now that it held before the introduction of the Provincial Services scheme in 1871-72. *Secondly*, there are the estimates and accounts of *Provincial Services*, or of those branches of revenue and expenditure, originally Imperial, made over to the management of the Local Government under the present system of

provincial contracts. *Thirdly*, there are the estimates and accounts of the funds constituting the *Provincial Reserve*, that is, of those Local Funds, the balances of which are at the disposal of the Local Government for provincial purposes. *Fourthly*, there are the estimates and accounts of those *Local Funds* (properly so called) which are by law or by their constitution devoted to particular local and limited objects. The amount of control which may be exercised over these by Government varies considerably, and may be said to be at a minimum in the case of the District Road Fund, and at a maximum in the case of the Port Funds. Both these strictly Local Funds, and those hitherto included under the Provincial Reserve, may be divided with reference to their origin into two classes, thus—

(I)—Funds supported by compulsory rating, or by payments under sanction of law, or orders having the force of law.

(II)—Funds made up of payments which are of the nature of rents, tolls, or fees, for services or facilities rendered or privileges conferred.

Lastly, there are the accounts and estimates of *Municipal Funds*. These, though strictly speaking local funds, are not dealt with in the Local Funds Budget of this Government, under which only the funds of the *fourth* class are treated together.

3. By its Resolution No. 1886, dated the 28th March 1877, the Government of India directed that the transactions of the Local Government, under the heading of 'Provincial Services,' should be re-incorporated in the general estimates and accounts. The effect of this order was to amalgamate, for the purposes of the Imperial Budget, the *first* and *second* classes of accounts and estimates described in the preceding paragraph. The later Resolution, No. 1072 of the 20th February 1878, re-incorporated with the estimates and accounts of Provincial Services "those resources recorded under 'Local Funds' which were at the free disposal of the Local Government for expenditure in any part of its jurisdiction without legal let or hindrance." The effect of this was to incorporate with the estimates of Provincial Services, and therefore with the Imperial estimates, the transactions of the funds treated in Bengal as Provincial Reserve (*i.e.* the *third* class above described).

In the same Resolution of the 20th February, it was stated that the estimates and accounts of the transactions of *Local Funds* would thereafter be "confined to moneys which are not the property of the Government at all, or the appropriation of which is regulated by special laws and limited to territorial units within the provincial jurisdiction or to some specific objects." The intention of these remarks was understood by this Government to be to leave under the head of Local Funds all the funds hitherto treated as such in the Bengal Local Funds Budget; the last clause in the definition of the excluded local funds seeming clearly to cover all the funds so treated by this Government. In the statements appended to the Resolution No 1911 of the 18th March, the estimates of the majority of these funds have, however, also as a matter of fact been incorporated in the Imperial Estimates, though it is still declared that "the receipts and disbursements of those local funds which are appropriated to specially defined purposes, or are quasi-private property and are not at any stage *under the direct control of the Local Governments*, and *do not affect whole provinces* will still be excluded from the general estimates and accounts, and shown in subsidiary statements." It is added that, "excepting the Port Funds, their amount will be unimportant."

4. This Government had no opportunity of expressing its views as to the manner and extent to which the various 'local funds' fall within the category of funds suitable for incorporation in the general accounts, and for this year the distribution directed by the Government of India must be accepted as it stands. But the Lieutenant-Governor is disposed to think that the Government of India may on further examination of the accounts be convinced that the selection of funds for incorporation has not been altogether in accordance with the principles which it has itself laid down. The local funds which have been incorporated in the general estimates are these—

(1.) District Road Fund.
(2.) District Road Account.
(3.) Zemindari Dák Fund.

(4.) Fund for the Management of Wards' Estates.
(5.) Government Estates Improvement Fund.
(6.) Inland Labor Transport Fund.
(7.) Zoological Garden Fund.
(8.) Salt Reward Fund.
(9.) Encamping Ground Grazing Fund.

The funds which still remain 'local' are—

(10.) The Cantonment Fund.
(11.) Pooree Pilgrim Fund.
(12.) Jugernath Road Fund.
(13.) Town Improvement Fund.
(14.) The various minor Port Funds.
(15.) Hospital Port Dues Fund.

Municipal Funds, which, however, represent a very considerable item of taxation, do not anywhere appear in the accounts.

5. The District Road Committee no doubt act in that capacity as a branch of the Government and not in any way as a private body, and as these Committees are appointed by Government, the Funds may be said perhaps to be under the direct control of Government; but Government has no power to spend these funds, except through the Local Committees and in the districts in which the money is raised; but much the same may be said of municipalities, and if it be intended to bring into the estimates all the moneys raised for public purposes within the province, there would seem to be as good reason for incorporating the Municipal Funds as the District Road Fund. Government has almost identical powers in respect of either. The District Road Fund has no operation within municipalities, but together they represent the aggregate of district taxation for strictly local purposes.

6. Further, the Lieutenant-Governor observes that all the receipts of the incorporated local funds, together with those hitherto classed as Provincial Reserve (and enumerated on the margin), are shown, along with the Provincial Public Works Cess, under the heading of "Provincial Rates." He fears that this nomenclature may be likely to mislead. The great majority of the funds thus classified are in no sense 'rates' or 'taxes,' and an erroneous impression may be caused as to the incidence of taxation in Bengal by their being so entered. The Lieutenant-Governor can quite understand that it is considered desirable to show in the annual estimates and returns the gross amount of taxation of all kinds—Local, Provincial, and Imperial—in British India. In that case the heading of provincial rates ought properly to comprise everything in the shape of a rate or tax (other than assessed taxes, which are separately shown) and including of course municipal taxation. The other funds (including Port Funds and all funds not absolutely Trust Funds) might then be classed under a separate heading as 'Local Funds,' or treated as miscellaneous receipts; they being all moneys paid into the public treasuries for public purposes, though these purposes may be more or less local or specific.

7. While venturing to make these suggestions for the future consideration of the Government of India, the Lieutenant-Governor has, in the revised estimate attached to this Resolution, followed the classification adopted by the Government of India; but in a foot-note the balances at the disposal of the Local Government for provincial purposes are distinguished from the balances belonging to Local Funds, whether incorporated or not. It is of course understood that in virtue of their incorporation in the public accounts, no change of practice is intended in respect of the management or control of any of the funds hitherto treated as local. The District Road Fund, for instance, will continue under the management of the District Road Committee in accordance with law. The Zemindari Dák Cess will be devoted to its present uses, and be subject to increase or decrease solely on consideration of the requirements of that special fund, and without any reference to the exigencies of the Provincial or Imperial Governments. So in the case of all the other funds, the fund accounts will be maintained as hitherto, and the estimates of each will be separately dealt with on existing principles before the figures are incorporated in the

general estimates and accounts. The Lieutenant-Governor has, in fact, already passed orders upon the Local Funds Budget Estimate as in former years, dealing with each Local Fund separately in the usual way.

8. In considering therefore the revised estimates appended to this Resolution, it is necessary to remember that the inclusion of the local funds in the accounts does not in any way affect the financial position of the Local Government; and in order to the due understanding of the *provincial* finances as they now are, it will be convenient here to review very briefly the history of the provincial balances (strictly so called) since the first introduction of the Provincial Services scheme in April 1871.

9. The financial year 1871-72 opened with a credit balance of Rs. 5,32,870 under Provincial Services, being a special assignment made by the Imperial Government from the savings of 1870-71 in addition to the fixed annual allotment of Rs. 1,23,09,990. The opening balance of those Local Funds which were constituted into the Provincial Reserve aggregated on the 1st April 1871 Rs. 15,12,387. The Local Government therefore commenced its independent financial career with a balance in hand of Rs. 20,45,257, apart altogether from the balances of strictly Local, Municipal, and Trust Funds.

10. The strict economies of Sir George Campbell effected in the year 1871-72 savings aggregating about seventeen lakhs of rupees under the Provincial Service heads, and the year 1872-73 opened with a balance under those heads of Rs. 22,23,126, while the balance under Provincial Reserve had risen to Rs. 16,12,440, making a grand provincial balance of Rs. 38,35,566. For the year 1872-73 very liberal grants were made under Education, Medical, Public Works and other headings; but the closing balance under 'Services' rose to Rs. 35,58,298. This result is, however, partly to be explained by a special grant from the Supreme Government of Rs. 9,66,677 on account of the Sudder Court buildings, capitalization of Calcutta rents, and Burdwan fever relief. The greater part of this special grant was meant to be reserved for the erection of public offices for the Bengal Government. Under Reserve the balance fell to Rs. 9,80,683, making the aggregate provincial balance at the opening of 1873-74 Rs. 45,38,981. In 1873-74 the Local Government was called upon to face the enormous expenditure on relief works caused by the famine in Bengal and Behar, and the year closed with a deficit of Rs. 19,037 under 'Services,' while the balance under Reserve had fallen to Rs. 5,14,704. The net provincial balance at the opening of 1874-75 was thus only Rs. 4,95,667. During 1874-75 the expenditure upon relief works continued to be heavy, but a special grant of Rs. 76,38,139 was received from the Supreme Government, and the year closed with a credit balance of Rs. 23,61,583 under Services, and of Rs. 8,28,465 under Reserve, the aggregate being Rs. 31,90,048. In the year 1875-76 the final adjustment of the famine account between the Supreme and Local Governments took place. It was estimated that if all charges on account of famine had been excluded from the accounts, the closing balance under 'Services' in 1873-74 would have been Rs. 19,21,069, in 1874-75 Rs. 13,87,787, and in 1875-76 Rs. 12,97,981. The balance under Provincial Reserve at the end of 1875-76 being Rs. 7,21,464, that year would, famine apart, have left the Local Government with about 20 lakhs of rupees in hand. The demand of the Imperial Government on account of that portion of the relief works chargeable to the Provincial Public Works Budget being far in excess of this sum, it was arranged that the Bengal Government should surrender to the Imperial Government about 15 lakhs of its estimated credit balance; that all outstanding famine charges beyond that amount should be debited to the Imperial Government; and that the accounts should be so adjusted as to leave to the Government of Bengal an opening balance of Rs. 5,00,000 on the 1st of April 1876.

11. It will be seen from the above that, even apart from famine, the service balances were estimated to show an annual falling off in the years following 1873-74, until in the budget of 1876-77, after excluding famine charges, they would have been estimated at only Rs. 10,70,926. The explanation of this diminution of the balances is to be found entirely in the accounts of expenditure, for the ordinary receipts remained fairly constant throughout this

period, and in some instances showed an increase. The following are the principal figures of ordinary expenditure which account for the result:—

Expenditure.

Chief heads showing increase.	1871-72.	1872-73.	1873-74.	1874-75.	1875-76.
	Rs.	Rs.	Rs.	Rs.	Rs.
Jails	14,84,000	16,82,000	19,22,000	17,91,000	16,99,000
Education	19,58,000	20,91,000	24,62,000	23,11,000	23,53,000
Medical	9,09,000	11,56,000	13,78,000	13,14,000	12,59,000
Public Works	27,62,000	36,07,000	47,30,000	39,39,000	27,37,000

The figures for 1871-72, 1872-73, and 1873-74 include Assam.

12. With the year 1876-77 the provincial finances took a fresh start. The whole opening balance of Rs. 5,00,000 granted by the Supreme Government was credited under Provincial Services, the Reserve Fund opening with nothing to its credit. The accounts now submitted show that the year closed with an actual credit balance of Rs. 8,49,395, divided as follows:—

	Rs.
Under Provincial Services	2,87,265
„ „ Reserve	5,62,130
Total ...	8,49,395

13. The opening balance of Provincial Services had thus decreased by Rs. 2,12,735, and it would in fact have been entirely absorbed but for extraordinary receipts under Public Works on account of sales of plant and tools for Madras famine relief, and an increase under the receipts from registration fees. The Provincial Reserve Fund, however, closed with a balance of Rs. 5,62,130, making the aggregate balance at the disposal of the Local Government on 1st April 1877 Rs. 8,49,395 as shown above, or Rs. 3,49,395 better than at the beginning of 1876-77.

14. The first estimate of receipts and charges of Provincial Services and Provincial Reserve for 1877-78 was made in February 1877 before the actual opening balances were known, and before the receipt of the orders of the Government of India transferring to provincial control certain additional revenues and charges. As those orders materially changed the position of the provincial finances, this first estimate may be set aside for the purposes of this resolution. The revenues surrendered and the grants for expenditure entrusted to provincial management and responsibility by the orders of the Supreme Government in March 1877 were as follow for 1877-78:—

Revenues.	1877-78.	Grants.	1877-78
	Rs.		Rs.
Excise	64,00,00	Refunds ...	4,91,000
Customs	36,000	Land Revenue ...	22,62,000
Salt (minor items) ...	2,20,000	Excise	2,92,000
Stamps ... ... }	1,05,75,000	Customs	6,93,000
Law and Justice ... }		Salt	39,000
Marine	10,84,000	Stamps	2,38,000
Miscellaneous ...	7,92,000	Law and Justice ...	63,97,000
		Administration ...	12,61,000
		Minor Departments ...	1,68,000
		Marine	10,92,000
		Stationery	4,98,000
		Police	7,000
		Miscellaneous ...	25,000
		Bishop's Palace, &c.—Petty construction and repairs ..	7,000
	1,91,07,000		1,34,70,000

15. That is to say, the various departmental receipts for 1877-78 were transferred to the Government of Bengal for a fixed contribution of Rs. 1,91,07,000, and the charges were transferred with a fixed total assignment of Rs. 1,34,70,000. Amalgamating the previous Imperial assignment with these figures, the result is as follows:—

	Rs.
Amount of previous Imperial assignment for 1877-78 ...	1,10,59,000
Grants assigned for 1877-78	1,34,70,000
Total ...	2,45,29,000
Amount of contribution to be paid by the Bengal to the Supreme Government in 1877-78 for revenues surrendered	1,91,07,000
Amount of Imperial grant ...	54,22,000

Under these arrangements the Imperial grant would strictly have been Rs. 54,22,000, but the Government of India deducted Rs. 5,90,000 from the previous Imperial allotment of Rs. 1,10,59,000 as a lump retrenchment or contribution from Provincial to Imperial resources, and the net Imperial grant for 1877-78 was fixed at Rs. 48,32,000.

16. The Government of India further resolved to enforce provincial responsibility for the financial results of railways and irrigation works, and the sum to be paid by the Local Government into the Imperial Exchequer on this account was at first fixed at Rs. 27,47,000 for 1877-78; but this was subsequently reduced to Rs. 20,00,000 in consideration of the fact that this Government would only be able to collect during 1877-78 a portion of the annual demand of Public Works Cess imposed under Act II (B.C.) of 1877 to meet these extraordinary charges.

17. A second or revised estimate for 1877-78 was submitted to the Government of India with this office Resolution No. 1705, dated the 6th June 1877, in which, however, no provision was made for the contribution to be paid on account of extraordinary Public Works, and no credit was taken for receipts from the Provincial Public Work Cess. In this estimate it was assumed that, under the ordinary Provincial Services as now constituted, there would be a closing credit balance at the end of 1877-78 of Rs. 11,199; but this result was only brought about by taking credit on the receipt side for a sum of Rs. 5,90,000 in excess of the original estimates of stamp receipts, on account of operations under the Land Registration Act No. VII (B.C.) of 1876. Had it not been for this, the estimate would have closed with a debit balance of Rs. 5,53,141.

18. The year 1877-78 has, however, been prosperous beyond the most sanguine anticipations. The excise revenue has risen all over the country. The receipts from stamps have been very considerable, owing to the land registration operations and to the general briskness of trade arising from the Madras famine. The registration receipts and marine receipts have also grown. On the other hand, the Lieutenant-Governor feeling that the prospects of the year were at the outset doubtful, reduced all expenditure as much as possible, postponing many necessary and important works, until he was in a position to know that he could proceed with them safely.

REGULAR ESTIMATE, 1877-78.

19. A revised or regular estimate of all receipts and charges for 1877-78, based on actuals for eight, and in some cases for ten months, is given in column 3 of the appendix. In this revised estimate a new major head has been opened on the Receipt side for "PROVINCIAL RATES," under which have been entered the estimated receipts from the Provincial Public Works Cess, together with the balances on the 31st March 1878 of the Provincial Reserve Funds, and the balances of those Local Funds which the Government of India has, as above explained, resolved to incorporate in the Public Accounts, the whole aggregating Rs. 53,88,000. It is estimated that the receipts from the Provincial Public Works Cess during 1877-78 will not be more than Rs. 18,50,000. The balance to credit of Provincial Reserve (abolished) is expected to be Rs. 13,62,000; and the balance

of Local Funds incorporated is taken at Rs. 21,76,000. This last sum, however, it will be remembered, is not in fact at the disposal of the Local Government for provincial purposes.

20. Under the head of "SALT" the old balance of the Salt Reward Fund (Rs. 59,000) is credited, the Lieutenant-Governor having determined that this need no longer be maintained as a separate fund, but may form a sub-head under the major head of SALT.

21. Two new headings have been opened, "CANALS" and "STATE RAILWAYS," to show the gross receipts from those works, for the maintenance and interest charges of which the local Government has become responsible.

22. On the EXPENDITURE side of the statement under "INTEREST ON DEBT" is shown Rs. 20,00,000, the sum which the Government of India has agreed to accept from this Government for 1877-78 on account of interest on the capital expenditure for Canals and State Railways after crediting net traffic receipts. The sum payable under the Government of India's orders No. 1801 of 26th March 1877 was about 27½ lakhs of rupees. In consideration, however, of the fact that the Public Works Cess only came into force in June last, the Government of India, as already explained, reduced the demand for 1877-78 to 20 lakhs. The collections of the cess during 1877-78 are expected to be only 18½ lakhs, but the difference between this sum and the demand of the Supreme Government can be met from the general Provincial balance, which will recoup itself in the following year.

23. The only charge entered under "PROVINCIAL RATES" is one of Rs. 10,000 for the cost of collecting the Public Works Cess.

24. Under "CANALS" and "STATE RAILWAYS," the expenses of maintenance of these works is shewn in gross.

25. Throughout these revised estimates for 1877-78, the Lieutenant-Governor has accepted the figures adopted by the Financial Department of the Government of India for the purposes of the Imperial estimates, in preference to the figures originally furnished by the Accountant-General for the Provincial estimates, as the Government of India had in several instances actual figures for ten months before it, instead of for six or eight months, which were all that were available when the local Government prepared its estimates.

26 Including the transferred balance of Provincial Reserve (Rs. 13,62,000), but excluding Local Fund balances, the year 1877-78 is estimated to close with a credit balance at the disposal of the local Government amounting to Rs. 28,54,000; and as the balances of the Local Funds amount to Rs. 21,76,000, the gross balance, including incorporated local funds, is estimated to be Rs. 50,30,000.

ESTIMATE, 1878-79.

27. It is now necessary to examine and explain the estimate for 1878-79. Each of the ordinary service heads has been dealt with by the Lieutenant-Governor in a separate resolution, and it is only intended here to recapitulate such of the main facts as throw light upon the estimate as a whole. The figures accepted in the separate resolutions of this Government are those entered in the statement hereto appended, any slight modification made for Imperial purposes in the Financial Department of the Supreme Government being, under instructions from that Department, disregarded.

28. The receipts under LAND REVENUE are estimated at Rs. 86,000, against Rs. 87,000, the revised estimate for the current year. They show a considerable increase over the receipts of 1876-77 in consequence of the operations under the Land Registration Act.

29. The receipts from EXCISE are estimated at Rs. 69,00,000, against Rs. 68,60,000, the revised estimate for 1877-78. If the year 1878-79 is fairly prosperous, there is no reason to doubt that this figure will easily be reached. It may very possibly be exceeded. The Local Government and the Board of Revenue are at present devoting much attention to the improvement of the excise system in these provinces. There is strong reason to believe that there has been a large consumption of illicit liquor is some districts, and that the revenue has been systematically defrauded, and in some instances locally mismanaged. It is the object of Government to enhance the revenue in a legitimate way by substituting licit for illicit consumption, while by raising the

duties on drugs it discourages the growing use of those deleterious articles that have a tendency to take the place of the more wholesome weak spirit of the country wherever the procuring of this is made exceptionally difficult.

30. The receipts under the License Tax Act shown under ASSESSED TAXES the Government has no present means of estimating accurately. The estimate adopted is in the main a conjectural one, though based to some extent upon the recorded results of the License Tax of 1867 and the Certificate Tax of 1868. It is assumed that the receipts under the Act may amount to Rs. 23,50,000, and a similar sum, less Rs. 2,35,000 on account of cost of collection, is shown as expenditure on FAMINE INSURANCE on the other side of the estimate. The figures of the License Tax do not affect in any way the ultimate provincial balances.

31. Under PROVINCIAL RATES is entered a sum of Rs. 34,50,000, the estimated receipts from the Public Works Cess in 1878-79; Rs. 16,32,000, receipts from funds formerly classified as reserve; and Rs. 36,84,000, the income of the incorporated "Local Funds," the whole together aggregating Rs. 87,66,000.

32. The receipts and charges under CUSTOMS, so far as these are provincial, call for no special remark. The Local Government receives certain small items of revenue, and a further grant to enable it to meet the charges of the establishments of the various custom houses in the province.

33. The provincial receipts from SALT consist only of warehouse rents and a few minor items of fees and fines made over by the Government of India in March 1877. The Lieutenant-Governor has now, as already stated, added to these the receipts of the *Salt Reward Fund* which were hitherto entered in the Local Funds Budget. These will amount to Rs. 8,300 in 1878-79.

34. The receipts under STAMPS have been estimated at Rs. 1,01,50,000, against Rs 1,07,50,000, the revised estimate for 1877-78. Under this head, taken together with LAW AND JUSTICE, the Imperial Government expects a normal growth of revenue of two and three-quarter lakhs per annum for the next four years. The receipts of the current year have from exceptional causes been largely in excess of the amount which this Government was bound to make good to the Government of India in 1877-78, viz. Rs. 98,50,000. But it is the opinion of the Board of Revenue and of the local officers that the receipts of 1878-79 under Stamps are not likely to exceed Rs. 97,34,000, while the sum this Government has to make good to the Government of India is Rs. 1,01,00,000. The Lieutenant-Governor was disposed to think that the local estimates might safely be somewhat raised, and in consideration of the general prosperity of the country and the promising state of the winter crops, and in the expectation that the Stamp Bill at present before the legislature would shortly become law, he raised the estimate to Rs. 1,01,50,000. It is now, however, certain that the Stamp Bill will not pass into law before next cold season, and it is therefore doubtful how far the anticipations of this Government may be realized. The demand of the Supreme Government for two and three-quarter lakhs of rupees annual increment in the receipts under 'Stamps' and 'Law and Justice' is likely to prove a serious charge upon the general resources of the Local Government for the next few years. The share of the increment expected from 'Law and Justice' was Rs. 25,000. It has not been found possible to estimate for this in 1878-79, and the receipts are only taken to be Rs. 8,000 better than those of 1877-78.

35. Under the orders of the Government of India for amalgamating the Provincial with the Imperial financial accounts, the receipts and charges of '*Jails*' and '*Registration*' fall now under LAW AND JUSTICE. For convenience of comparison, however, they may here be separately referred to.

36. Under *Jails* the receipts have been estimated at Rs. 7,34,000, against the revised estimate for 1877-78 of Rs. 8,30,000, and the expenditure has been estimated at Rs. 15,55,000, against Rs. 16,28,000. Both the Accountant-General and the Inspector-General of Jails, in estimating the receipts and charges under this head in preceding years, took into account the paper transactions of the Department—on the receipt side the value of clothing and other jail supplies, and on the debit side the charges under various heads on account of supplies not purchased in the local market, but received from jails. As, however, the object of an estimate is to enable Government to know its cash liabilities, the figures for paper transactions have been eliminated from the estimate

for 1878-79. Compared with figures of previous years, the estimated expenditure under Jails shows a decrease in 1878-79. But the Lieutenant-Governor has made a grant of Rs. 2,30,000 under Public Works for jail buildings, which in several districts are still in a very disreputable state.

37. The receipts under *Registration* have been estimated at Rs. 8,00,000, against Rs. 7,00,000 for 1877-78. The new table of fees under the Registration Act is expected to raise the receipts by about 25 per cent., and the steady and regular expansion of registration is not likely to be checked, save by some serious and general calamity. The expenditure of the department has been at the same time reduced by a careful revision of establishments and regulation of their rate of payment.

38. The gross revenue under LAW AND JUSTICE is estimated at Rs. 22,67,000. This estimate is perhaps rather sanguine with reference to the results of the present year's working as seen in the revised estimate for 1877-78.

39. The receipts under MARINE have been estimated at Rs. 10,87,000, against the grant made by the Government of India under this head of Rs. 10,84,000. The revised estimates for 1877-78 show receipts amounting to Rs. 14,76,000 during the current year, which are attributable to the great development of the trade in grain during the pressure of the late famine, and the consequent remarkable influx of vessels to the port; but the Lieutenant-Governor did not feel justified in anticipating a recurrence of these exceptional circumstances in 1878-79.

40. The receipts under EDUCATION are estimated at Rs. 5,29,000, against Rs. 5,25,000 in 1877-78. It may be noted that, since the inauguration of the scheme of Provincial finance, the receipts under this head have greatly increased, thus—

	Rs.		Rs.
1871-72	3,90,000	1875-76	4,95,287
1872-73	3,80,007	1876-77	4,75,227
1873-74	4,78,540	1877-78 (regular estimate)	5,25,000
1874-75	5,02,363	1878-79 (estimate) ...	5,29,000

As educational receipts consist chiefly of college and school fees, the fact of their steady increase is particularly satisfactory.

41. Under the head of MISCELLANEOUS are included receipts from sale of old stores, unclaimed deposits, medical, printing, and various other sources. The gross receipts are estimated for 1878-79 at Rs. 10,66,000, against Rs. 10,69,000 in 1877-78.

42. The receipts under *Medical* are estimated at Rs. 1,44,000, against Rs. 1,59,000 in 1877-78. There is a slight decrease in the estimated receipts of the coming year, attributable chiefly to the substitution of the cheap cinchona febrifuge for quinine in sales to the public, &c. In both 1876-77 and 1877-78 the great influx of shipping into the Port of Calcutta gave an abnormal development to the fees from paying patients in Government hospitals and asylums, which is not likely to recur next year. The general question of enforcing payment from well-to-do patients in Government hospitals is now under consideration.

43. The receipts from *Printing* are estimated at Rs. 52,000; and from unclaimed deposits at Rs. 6,00,000.

44. PUBLIC WORKS receipts are estimated by that Department at Rs. 61,000.

45. The gross receipts of the *Sone* and *Orissa Canals* (CANALS) are estimated at Rs. 9,67,000 for next year, showing a large and satisfactory advance attributable to the readiness with which landowners and others are now coming forward to take the water.

46. From STATE RAILWAYS an income is expected of Rs. 16,18,000; which may probably be larger if the rolling stock of the Northern Bengal Railway is increased.

47. On the EXPENDITURE side of the estimates, the first heading is that of INTEREST, representing the gross interest charge for the year upon the capital expended on reproductive works, for which the Provincial Government is responsible. This is taken to be Rs. 31,99,000. The actual amount which the local Government has to make good is the gross interest less the net traffic

receipts, and will amount in 1878-79 to about Rs. 24,15,000. This will be met from the Public Works Cess collections, the balance of which will then be available for other works of improvements within the Province. The charge entered under FAMINE INSURANCE represents, as above explained, the estimated net proceeds of the License Tax. The cost of collecting this tax, estimated at Rs. 2,35,000, is entered under heading VII, ASSESSED TAXES. The cost of establishment for collecting the Public Works Cess, Rs. 50,000, is shown under VIII, PROVINCIAL RATES.

48. The estimated grant for REFUNDS AND DRAWBACKS, under Provincial Services was Rs. 5,23,000. To this has now been added Rs. 34,000 on account of funds lately held as Reserve, and Rs. 1,000 for incorporated Local Funds, making a total provision of Rs. 5,58,000.

49. The expenditure under LAND REVENUE is taken at Rs. 25,31,000, including a grant of Rs. 1,40,000 recently made by the Government of India on account of the management of Government estates transferred to provincial control. The local estimates, as passed by the Board for the management of these estates, amount to Rs. 1,46,200, but the Lieutenant-Governor will only admit the provision of Rs. 1,40,000. The other expenditure under this head consists mainly of salaries of permanent establishments, and remains on the whole tolerably constant, with, however, a strong tendency to increase, which it has been necessary very firmly to resist.

50. The expenditure under EXCISE and CUSTOMS is normal and calls for no special remark.

51. Under SALT the estimate of expenditure has been raised to Rs. 60,000, against Rs. 40,000 for 1877-78. This increase is rendered necessary by the cost of the preventive establishment at Pooree (about Rs. 13,000) which is under recent orders of the Government of India to be borne by the Government instead of by the manufacturers as heretofore. An application was made to the Government of India to increase the provincial assignment to the extent of the extra charge thus thrown on the Local Government, but His Excellency the Governor-General in Council has decided that this shall be postponed until it is certain what the actual charge is likely in future to be. Meantime the Provincial Government will defray the cost, looking to the Supreme Government to indemnify it hereafter. The charges of the *Salt Reward Fund* have also for the first time been shown under this head and have helped to swell the figures of expenditure.

52. The expenditure of the *Jails* and *Registration* Departments included under the major head of LAW and JUSTICE has been noticed above. The expenditure under ADMINISTRATION and LAW AND JUSTICE proper, consists mainly of salaries and payments to fixed establishments which are not susceptible of reduction, but rather, as in the case of 'land revenue charges,' show a constant tendency to increase. The Lieutenant-Governor has it in contemplation to invite the High Court to assist in a general scrutiny and revision of ministerial judicial establishments, which may possibly effect some savings. But there can be no doubt that the Government must be prepared very shortly to meet a large increase in the number of Moonsifs, as well as the cost of the system of appellate benches, now under reference to the Secretary of State. The Lieutenant-Governor hopes, however, that some part at least of the increased cost of Moonsifs may be met by a revision and re-arrangement of grades in the Subordinate Judicial Service.

53. Under MINOR DEPARTMENTS are entered Rs. 1,85,000 on account of expenditure on the establishments of funds formerly under reserve, and Rs. 5,78,000 on account of the establishments of incorporated local funds. This accounts for the apparent large increase under this head, which now aggregates Rs. 10,19,000.

54. The expenditure on account of POLICE has been estimated at Rs. 39,08,000, against Rs. 41,00,000, for 1877-78. The Inspector-General of Police is now engaged on a detailed examination of the Police allotments of all the districts in Bengal, in view to extensive reductions, which are believed to be both possible and desirable. Already reductions aggregating Rs. 32,000 have been made in the case of Orissa, and it is expected that the retrenchments throughout Bengal will aggregate not less than Rs. 1,75,000. These reductions will not in any way impair the real efficiency of the force, being based upon

a more careful adaptation of the Police arrangements to local requirements and on certain improvements of system, as to which there is a general agreement among the most experienced District and Police officers.

55. Under EDUCATION the provincial expenditure has been estimated at Rs. 25,72,000, against Rs. 24,32,000, the revised estimate for 1877-78, and Rs. 24,47,958, the actual expenditure of 1876-77. Provision has been made in the estimates for the introduction of the graded scheme of teachers' salaries, and for the maintenance and gradual extension of the Government Art Gallery. To the above figure for 1878-79 has to be added Rs. 23,000 expenditure debited to the Estates Improvement Fund, making the total grant under this head Rs. 25,95,000.

56. The provincial MEDICAL expenditure is estimated at Rs. 12,07,000, against Rs. 13,35,000 for 1877-78. There has been a large and serious increase in this class of expenditure since 1871-72, into the causes of which the Lieutenant-Governor has ordered close and detailed enquiry. The grant for the ensuing year is reduced, in the expectation that the Committee now investigating the subject will secure very shortly savings in hospital and dispensary outlay. At the same time, the reductions made have been for the present very moderate in amount, to prevent any risk from a too summary change of system. A sum of Rs. 4,000 debitable to local funds has been added to the provincial estimate which shows a total of Rs. 12,11,000.

57. The expenditure under PRINTING has been estimated at Rs. 1,85,000, against Rs. 2,58,000 for 1877-78. The large decrease is due to radical changes made in the organization of the Printing Department, which are expected to result in savings to the extent of one lakh of rupees. In future, all heavy printing work will be executed at the Presidency Jail, which is being converted into a large Government Printing and Binding Establishment. At the Secretariat Press only the current printing work of the office will be carried on. To the above a sum of Rs. 2,000 has to be added on account of reserve funds work.

58. The grant for STATIONERY received from the Government of India was Rs. 4,98,000, reduced to Rs. 4,48,000. The estimated charge in 1878-79 is Rs. 5,15,000, but measures are under consideration for reducing the outlay under this head.

59. Under 'MISCELLANEOUS' has been included a sum of Rs. 2,000, debitable to funds formerly in Reserve, and Rs. 83,000, charges of incorporated Local Funds. The total grant is thus raised to Rs. 3,79,000, but there is no real increase of charge to Government.

60. The largest head of expenditure is the PUBLIC WORKS ordinary, the total grant for which in 1878-79 is Rs. 85,99,000, thus made up—

	Rs.
Original normal grant for Public Works	24,90,000
Additional grant (explained below)	20,00,000
Expenditure formerly debited to Reserve Funds	9,14,000
Grant for Railway Surveys	80,000
Total grant from Provincial Services	54,84,000
Expenditure from Incorporated Local Funds	31,15,000
Total ...	85,99,000

61. The grant originally made to the Public Works Department for 1878-79, on which its detailed Provincial estimates were to be prepared, was Rs. 24,90,000 only. When, however, the revised estimates of 1877-78 showed that the financial position of the province was a safe and flourishing one, and in view of the favourable estimate of the receipts for 1878-79, the Lieutenant-Governor decided to make a large addition to the Public Works expenditure, and to carry out various important and useful schemes that had been left in abeyance for want of funds.

62. On the inauguration of the scheme of Provincial Finance in 1871-72, the grant made by the Government of India for Provincial Public Works was about 26 lakhs of rupees. In the first year of the Provincial scheme Sir G. Campbell allowed the Public Works Department to expend only a little more

than this grant; but in the next year (1872-73), as he had by saving elsewhere secured a large surplus, large special grants were given for roads and communications and the general improvement of the province; and the expenditure rose to nearly 35½ lakhs. In October 1873 came the first alarm of scarcity, and during the next two years—that is up to the end of 1874-75—the resources of the Provincial Public Works Department were devoted almost entirely to relief works in the distressed districts. When the famine was over, the local Government found its balances, as already explained, completely exhausted. In April 1876, the Lieutenant-Governor (Sir Richard Temple) expressed his conviction that there was no probability that the annual grant for Provincial Public Works could for some years to come exceed 25 lakhs of rupees. In accordance with this principle, the grants for Provincial Public Works for 1876-77, 1877-78, and 1878-79 were fixed.

63. The Lieutenant-Governor has now, however, decided upon taking in hand and pushing on as rapidly as possible the following important Public Works, making grants from Service Funds to the extent specified against each:—

	Grant. Rs.
Concentration of the Government Offices in Writers' Buildings, (postponed in 1875-76)	3,50,000
Improvements in the Medical College Hospital (estimated at 6 lakhs of rupees, half of which will be found by the Government of India)	3,00,000
Public Works Practical Training Institution	2,60,000
Jail Buildings	2,30,000
Court-houses at Durbhunga and Motiharee	2,10,000
Assam Emigration Road	1,50,000
Other Provincial roads and minor works	1,50,000
Improving navigable channels between Balasore and Pooree ...	50,000
Total ...	17,00,000

A further sum of Rs. 3,00,000 will be made available for other similar works to be selected hereafter. The sum of Rs. 9,14,000 will be spent on account of works hitherto debited to the Provincial Reserve Funds. Of this Rs. 7,73,000 are to be devoted to improving, enlarging, and locking the Calcutta Canals. Again, in accordance with the orders of this Government, No. 890, dated 6th March, a sum of Rs. 80,000 has to be provided on account of preliminary outlay on Railway Surveys. This will be charged eventually to the capital cost of the lines if sanctioned; meantime it is given from Provincial Funds. The ordinary expenditure of the incorporated Local Funds upon Public Works is, as shown above, Rs. 29,15,000. But besides this, the Lieutenant-Governor has made a further grant of Rs. 2,00,000 towards completing the Assam Emigration Road. This is in addition to grants aggregating Rs. 1,10,000 made this year for similar purposes. The total sum that Government has made available for this Road and the rest-houses thereupon is Rs. 4,60,000 this year and next.

64. The grants for the working expenses of CANALS and STATE RAILWAYS are Rs. 6,74,000 and Rs. 11,27,000 respectively.

65. The general effect of the estimates upon the provincial finances and balances may be thus shown:—

	Opening balance.	Receipts.	Total.	Charges.	Closing balance.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Provincial Finance	29,54,000	3,71,37,000	3,90,91,000	3,73,94,000	20,61,000	3,90,91,000
Local Funds	21,76,000	36,94,000	58,69,000	29,15,000	29,57,000	58,69,000
Total	50,30,000	4,08,31,000	4,58,51,000	4,11,09,000	50,18,000	4,58,51,000

66. The Lieutenant-Governor is of opinion that the Bengal Government should ordinarily maintain a credit balance under provincial funds of not less than 20 lakhs of rupees to enable it to meet the vicissitudes of bad years, without being driven to put a sudden and disastrous stop to all works of

improvement. Doubtless, when widespread and serious calamity comes upon the province, local resources at their best will not suffice to meet it, and everything must be sacrificed to the exigency of the moment. But the local Government should in normal years be in a sufficiently strong position to contemplate without dismay any mere temporary fluctuations in its excise and stamp revenue arising from bad crops and the like, and on the other hand it should be able to undertake from time to time works of more than common magnitude with the certainty of being able to complete them without curtailing its ordinary expenditure. Upon these principles the estimates for 1878-79 have been framed. If there seems during the year to be any prospect of a larger balance accumulating than it seems necessary to maintain, special arrangements will be made for putting in hand further works, which have already been decided upon.

ORDERED, that a copy of this Resolution and of the appended statement be submitted to the Government of India, Financial Department, and that a copy be forwarded to the Accountant-General and to the Public Works Department of this Government for information.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Secretary to the Government of Bengal.

PART I A.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following orders, issued by the Government of India in the Home Department, are republished for general information :—

NOTIFICATIONS.—PUBLIC.

Fort William, the 29th March 1878.

No. 707.—The following rules for the submission, receipt and transmission of memorials and other papers of the same class, addressed to Her Majesty the Queen, Empress of India, or to the Right Honourable the Secretary of State for India, by private persons or by officers of all civil departments, are published for general information ; and the rules published under Home Department Notifications No. 3742, dated 21st August 1867, and No. 1461, dated 31st July 1877, are cancelled :

N. B.—These rules do not in any way affect or supersede orders issued on the same subject by the military authorities for the guidance of the Army.

I.—No memorial will be received or attended to unless forwarded as hereinafter prescribed.

II.—Every memorial should be accompanied by a letter requesting its transmission to the authority to which it is addressed.

III.—Every memorial addressed to Her Majesty or to the Secretary of State for India should be forwarded through the Local Government under which the writer is residing or is employed.

IV.—Memorials to Her Majesty or to the Secretary of State from persons in the Madras and Bombay Presidencies should be forwarded direct by the Local Government, with a full statement of facts and an expression of opinion, except in the case of memorials which relate to any rule or standing order of the Government of India, or which, if granted, would cause expenditure for which the Imperial and not the Local Government would be primarily responsible, or which relate to any legislative proceeding of the Governor General in Council. Such memorials should be forwarded with a covering letter containing a full statement of facts and an expression of opinion to the Government of India in the Department having cognizance of the subject-matter of such memorial, by which Department the memorials will be transmitted to the Secretary of State.

V.—Memorials to Her Majesty or to the Secretary of State from persons in Bengal, the North-Western Provinces and Oudh, or the Punjab, should be forwarded by the Local Government, with a full statement of facts and an expression of opinion, to the Government of India in the proper Department for transmission to the authority addressed.*

* Appeals by private persons from the orders of Lieutenant-Governors lie, in the first instance, to the Governor General in Council. An appeal to the Secretary of State will lie only in the event of an appeal to the Governor General in Council having been rejected.

VI.—Memorials to Her Majesty or to the Secretary of State from persons in the minor Administrations—the Central Provinces, British Burma, Berar, Mysore, Coorg and Assam—should be forwarded with a full statement of facts and an expression of opinion by the Chief Commissioner, or other officer charged with the administration of the Province, to the Government of India in the proper Department for transmission to the authority addressed.†

† In these minor Administrations, also, appeals by individuals from the orders of the Chief Commissioners, &c., lie, in the first instance, to the Governor General in Council and thereafter to the Secretary of State.

VII.—No limit is fixed to the time within which an appeal from an order of the Governments in India must be preferred to the Home Department, except in the case of appeals from a judicial decision in which the Judge is a political officer, and in which the appeal ordinarily lies to Government in the Political Department. Such appeals‡ must be preferred within a period of twelve months from the date of communication to the persons concerned of the order to which objection is taken.

‡ When a judicial decision of the nature referred to has been communicated to the party or parties concerned before the 31st July 1877, he or they may appeal from such decision within 18 months from that date.

VIII.—Memorials may be transmitted either in manuscript or in print, but must, with all accompanying documents, be properly authenticated by the signature of the memorialist on each sheet.

IX.—Memorials, together with their accompanying documents, should be in English. If the

accompanying documents must necessarily be forwarded in the vernacular, an English translation should be appended, which should be attested by the signature of the memorialist.

N. B.—It will be well for the transmitting office to examine such translations, and if they are found to be incorrect or faulty, to notice the fact in sending on the memorial.

X.—It is not necessary that memorials should be forwarded in duplicate or triplicate. The originals will invariably be transmitted to England, a copy being made and retained by the Government of India, if necessary, for record.

XI.—As a general rule, the transmission to England of a memorial duly forwarded through the proper channel will not be delayed by the transmitting Government in India beyond a month after the receipt of such memorial.

XII.—Governments and Administrations in India are vested with discretionary power to withhold the transmission of memorials addressed to Her Majesty or to the Secretary of State in the following cases:

1.—When a memorial is illegible or unintelligible.

2.—When a memorial contains disrespectful or improper language.

3.—When a second memorial is presented after a decision has already been given by the authority to which it is addressed, and when no new facts or circumstances are adduced which afford grounds for a reconsideration of the case. A memorial addressed to Her Majesty by a person whose appeal to the Secretary of State has already been rejected, shall be held to be a second memorial to the same authority and shall not be transmitted.

4.—When a memorial is a mere application for pecuniary assistance by a person manifestly possessing no claim.

5.—When a memorial is an application for employment under one of the Governments in India from a person not belonging to the covenanted service.

6.—When a memorial is a mere appeal from a judicial decision.

7.—When a memorial is addressed by an officer still in the public service and has reference to his prospective claim to pension.

XIII.—The Government of India may withhold the transmission of a memorial addressed to Her Majesty or to the Secretary of State, unless the memorialist has previously memorialised the Government of India and the Local Government concerned on the same subject.

XIV.—A list of memorials withheld under the discretionary power conferred by Rule XII. will be forwarded quarterly to the Government of India in the case of memorials withheld by Local Governments under the same discretionary power, and by the Government of India in the Department concerned to the Secretary of State.

FREDERICK CLARKE,
Asst. Secy. to the Govt. of Bengal,

THE following Report of a Select Committee, with the Bill as amended by them, is published for general information:—

WE, the undersigned members of the Council of the Lieutenant-Governor of Bengal, to whom the Bill for the regulation of the rural police in the districts of Hazareebaugh and Lohardugga was referred, have the honor to make the following report:—

We have inserted the provisions of section 4 of Bengal Act VI of 1870, which empower the authorities to appoint a village policeman for two or more villages when the villages are a certain distance from each other.

We have made landholders, who hold subject to the condition of maintaining village police, liable to pay the amount of their salaries.

We have provided that the amount required for the salaries of village policeman shall be supplemented by a sum not exceeding fifteen per cent. of the amount, to provide for payment of expenses of collection and losses from the non-realization of the rate from defaulters.

We have provided that the list of persons liable to assessment shall be published at some conspicuous place within the village, and not at the police-station, within the jurisdiction of which the village is situated.

We have empowered the Deputy Commissioner to permit the headman of the village to retain a sum not exceeding 6 per cent. of the amount collected by him to repay the costs of the collection.

Following section 39 of Bengal Act VI of 1870, we have provided that the village policeman shall obey the orders of the Deputy Commissioner in regard to keeping watch in the village and other matters connected with his duties.

We have struck out section 30, as its object is already sufficiently met by section 29.

We have also struck out some provisions of section 36, which conflict with section 424 of the Civil Procedure Code, and have changed the period of limitation in that section from three to four months.

We have inserted a section for service of notices.

We have made some other minor alterations.

FREDERICK CLARKE,

Asst. Secy. to the Govt. of Bengal, Legislative Department.

THE following Report of a Select Committee, with the Bill as amended by them, is published for general information :—

WE, the undersigned members of the Council of the Lieutenant-Governor of Bengal to whom the Bill to provide for the cleansing and erection of latrines in first-class municipalities was referred, have the honor to make the following report :—

We have considered the provisions of this Bill.

We have provided that the system of conservancy contemplated in sections 2 to 10 may be brought into operation in any part of a municipality, and need not necessarily be extended to the whole municipality.

We have made it clear that the fees leviable are not to be necessarily a percentage rate, but may be on a graduated scale, to be fixed by the Lieutenant-Governor in communication with the Commissioners in meeting.

We have provided that public notice shall be given of the scale of fees annually.

We have inserted a section enabling the Commissioners to reduce or remit the fee in cases of poverty.

We have made it clear that where the Commissioners undertake to keep house privies clean, owners or occupiers shall not be punishable for neglecting them ; but we have provided that free access shall be given to the Commissioners' servants within proper hours.

We have provided in section 11 for the introduction in any municipality or part of a municipality of the licensing system of scavengering instead of the Halalcore system.

We have struck out all those sections of the Bill which made owners of *bustees* liable to provide public latrines, sharing the cost with the Commissioners. We consider that owners of houses and lands should provide latrines for their tenants at their own expense, and that where extra public latrines are required, the Commissioners should provide these from the proceeds of the fees under this Act or from the general fund.

We have directed that the Act should be read with and taken as part of the Bengal Municipal Act, which has enabled us to get rid of the section about appeals.

We have made other minor amendments.

We recommend that the Bill be passed as now amended.

Definition of "the Commissioners."

1. "The Commissioners" in this Act means the Commissioners of any first-class municipality under the Bengal Municipal Act, 1876.

Lieutenant-Governor may publish order on recommendation of Commissioners.

2. The Lieutenant-Governor of Bengal may, on the recommendation of the Commissioners at a meeting, by an order published as prescribed in section 365 of the said Act, declare that, from a date to be specified in such order, the Commissioners will maintain an establishment for the cleansing of all public and private latrines within the limits of the municipality, or any part thereof; and the Commissioners shall make suitable provision accordingly.

3. When such provision has been made, the Commissioners may, notwithstanding anything contained in section 77 of the said Act, levy fees, to be fixed on such scale, with reference to the annual value of holdings within the limits of the municipality, or such part thereof as aforesaid, as the Lieutenant-Governor of Bengal may, in communication with the Commissioners at a meeting, from time to time direct;

Recovery of fees.

4. The said fee shall be payable by the occupier for the time being of the holding, or by the owner thereof under section 5 of this Act, in quarterly instalments, and shall be recoverable in the manner prescribed for the recovery of the rate on the value of holdings in the Bengal Municipal Act, 1876.

Every instalment of the said fee shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

6. Every owner who, under the provisions of the last preceding section, is entitled to recover any sum from the occupier of any part of a holding, shall have for the recovery of the said sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to him by the occupier in respect of such portion of the holding as may be in his occupation.

Commissioner may reduce or remit fee.

9. The Commissioners may reduce the amount of a fee payable under this Act, or may remit the fee if in their opinion the levy of it would be productive of excessive hardship to the person liable to pay the same.

Penalty.

10. Whoever refuses to pay any fee or rate due under this Act, or, having compounded for the payment of a certain sum under section 7 of this Act, refuses to pay such sum, shall be liable to a fine not exceeding three times the amount payable by him, exclusive of the amount so payable.

The Commissioners at a meeting may grant such licenses subject to such conditions as they may think fit, and may impose fees in respect of the same.

This *day of* 187 *A. B.*

Secretary to { *the Government of* / *the Chief Commissioner of*

STATEMENT OF OBJECTS AND REASONS.

1. The main object of this Bill is to place newspapers which are published in the vernacular languages of India under better control, and to furnish the Government with more effective means than are provided by the existing law, of punishing and repressing seditious writings which are calculated to produce disaffection towards the Government in the minds of the ignorant and unenlightened masses. Another object is to prevent unscrupulous native editors using their papers as a means of intimidation or extortion.

2. As regards the latter of these objects, it is enough to state that the Government is informed on reliable authority that certain vernacular papers have from time to time been used as a means of intimidating, and extorting money from, our feudatories and native employés. As regards the former and more important object, a fuller statement of the reasons which have led to the introduction of this Bill seems desirable.

3. That a section of the vernacular Press has of late years assumed an attitude of fixed hostility to the Government; that it does not confine itself to criticising particular measures or the acts of individual officers on their merits, but attacks the very existence of British rule in India; and that the evil has been steadily growing and has now attained a magnitude which calls for the application of some strong means of repression, are facts patent to all who read the native papers.

4. The necessity for immediate action has been pressed on the Government of India from many quarters; and those most competent to form an opinion on such a point have advised that the existing law does not furnish a sufficient remedy; and that fresh legislation is accordingly necessary.

5. The only question has been as to the form which such legislation should assume, or, to speak more precisely, whether the object in view could be attained by any mere amendment of the general criminal law, or whether some measure of a special nature is required.

The Government of India have come to the conclusion that a special measure is necessary, and they have been led to this conclusion chiefly by two considerations:

6. In the first place, the object in view is simply to repress an evil which is altogether of a special and limited nature, and for the existence of which a small and strictly defined class of persons is answerable. It is not in any way necessary for that object to expand the general law relating to State offences, or to render that law more stringent. To do so would be to inflict an unmerited hardship on a large number of Her Majesty's subjects.

7. Secondly (and this seems to put the necessity of a special law, as distinguished from any mere amendment of the general law, beyond a doubt), the ordinary criminal law confines itself

to imposing penalties for offences already committed, whereas the particular offence to be dealt with here is of such a nature that it is not enough that it should be punished when committed. Its commission must be *prevented*, and this can be done only under a special procedure devised expressly for that purpose.

8. The Bill now introduced is restricted in its operation to publications in oriental languages. Its chief provisions will take effect only in those parts of British India to which they may be specially extended by the Governor General in Council, and will cease to have effect in those parts whenever the Governor General in Council so directs.

9. The system of check it establishes in the case of newspapers in oriental languages published in British India is as follows :

First.—The Magistrate may, with the previous sanction of the Local Government, require the printer or publisher of any such newspaper to enter into a bond binding himself not to print or publish in such newspaper anything likely to excite feelings of disaffection to the Government or antipathy between persons of different races, castes, religions or sects, and not to use such paper for purposes of extortion. The Magistrate may further require the amount of this bond to be deposited in money or securities.

Secondly.—If any newspaper (whether a bond has been taken in respect of it or not) at any time contains any matter of the description just mentioned, or is used for purposes of extortion, the Local Government may warn such newspaper by a notification in the Gazette, and if, in spite of such warning, the offence is repeated, the Local Government may then issue its warrant to seize the plant, &c., of such newspaper, and when any deposit has been made may declare such deposit forfeited.

Thirdly.—As the provisions regarding the deposit of security and the forfeiture of the deposit would, perhaps, be found to press unduly on some of the less wealthy newspaper proprietors, clauses have been inserted enabling the publisher of a newspaper to take his paper out of the operation of this portion of the Act for such time as he pleases by undertaking to submit his proofs to an officer appointed by the Government before publication, and to publish nothing which such officer objects to.

Any publisher may, if he chooses, do this at the time when he is called upon to deposit security; and if he does so, no security can be demanded from him.

Again, if he does not choose to avail himself of this provision at that stage, he may subsequently, in the event of a warning being issued against him, offer such an undertaking, and if the Magistrate accepts it, the proceedings are at an end.

10. As regards books, pamphlets, &c., printed in British India, containing matter of the description above referred to or used for purposes of extortion, the Bill gives the Local Government a power to seize them and the presses at which they are printed.

11. Newspapers and books published out of British India but circulated in British India remain. And in regard to them the Bill provides—

first, that if they contain matter of the nature already referred to or are used for purposes of extortion, the Local Government may seize them; and

secondly, that the Governor General in Council may prohibit their importation altogether.

12. The only other points calling for special notice are that an appeal is given to the Governor General in Council against anything done by a Local Government or any inferior authority; that declarations of forfeitures and other proceedings under the Act are made final and conclusive, subject only to such appeal; and that penalties are provided for printing or publishing a newspaper without executing a bond or making a deposit after such bond or deposit has been required, and for breach of an undertaking to submit proofs to a Government officer.

REGISTRATION OF HACKNEY CARRIAGES.

The Hon'ble Mr. Reynolds moved for leave to introduce a Bill to amend Bengal Act V of 1866. He said that by section 2 of Act V of 1866 it was provided that every hackney carriage within the Town and Suburbs of Calcutta

shall be annually registered by a registering officer who shall be appointed for the purpose by the Government, and shall be subordinate to the Commissioner of Police. Under that section a separate Registrar had been appointed, and he had been provided with an office establishment; but the work of registration occupied fully only two or three months of his time in the year. The fees received under the Act amounted to about Rs. 26,000 annually, and something like 47 or 48 per cent. of that amount went in paying the expenses of establishment. It was considered that it would be an improvement if the work of registration were undertaken by the Municipal Commissioners of Calcutta, whose licensing officer would be a fit person for the performance of the work under the Commissioners, as the greater part of the surplus proceeds of fees received under the Act was made over to them. But to enable the Commissioners to appoint the registering officer under the Act, it was necessary to make some modification of section 2. The present Bill therefore provided that the Government might empower the Corporation of the Town of Calcutta to appoint the registering officer, and any officer so appointed should be under the orders and control of the Chairman of the Corporation.

MR. REYNOLDS now only proposed to ask for leave to introduce the Bill, but if leave were given, he did not propose to refer the Bill to a Select Committee, the Bill being a very short and simple one, but to ask the Council to pass the Bill at the next meeting.

The HON'BLE BABOO KRISTODAS PAL said there was one suggestion he wished to make in connection with this Bill. The Bill gave power to the Municipal Corporation to appoint the registering officer, but not to remove him. As the Bill was now worded, after the appointment of the officer, he would be absolutely under the control of the Chairman. Under the Municipal Act an officer who received a salary of more than Rs. 200 per mensem could not be removed without the sanction of the Commissioners at a meeting. He thought it would be but proper that a similar power should be given to the Commissioners in respect to the removal of the registering officer. Perhaps the object might be attained if it were provided that this Act should be read as part of Act IV of 1876; in that case the conditions which applied to the removal of other officers of the Municipality would apply to the registering officer to be appointed under this Bill.

He would also ask the Council to consider whether a specific provision should not be made authorizing the transfer to the Municipal Commissioners of the surplus proceeds of fees levied under the Hackney Carriage Act. At present the disposal of such fees was left to the discretion of the Government. But now that the work of registration was to be transferred to the Corporation, it was meet that the surplus proceeds of fees should be made over to the Corporation for general municipal purposes, and also for purposes connected with the working of the Act, such as the construction and repairs of hackney carriage stands and the like.

The HON'BLE MR. REYNOLDS said he thought it was not necessary to make any distinct provision in the Bill regarding the removal of the registering officer who might be appointed by the Municipal Commissioners under this Bill. He understood that every officer appointed by the Corporation under this Bill would be subject to the general rules which regulated the appointment and removal of other officers of the Municipality, and consequently the registering officer when appointed would not be subject to removal without the sanction of the Commissioners. But it would not be incumbent upon the Commissioners to appoint a separate officer under this Bill; as he said before, the duties of Registrar of hackney carriages might be incorporated, if the Commissioners thought fit, with those of the licensing officer of the Commissioners.

With regard to the second suggestion which had been made by the hon'ble member, MR. REYNOLDS could not accept the proposal that the law should declare what proportion, if any, of the fees levied under the Hackney Carriage Act should be made over to the Municipality. Under the Act as it stood at present the surplus proceeds of the fees were at the disposal of the Government, and hitherto a certain proportion had been made over to the Municipality. It did not seem to him to be necessary to bind the Government to make over the surplus to the Commissioners.

The motion was agreed to.

REGISTRATION OF ESTATES.

The HON'BLE MR. REYNOLDS moved for leave to bring in a Bill to amend Bengal Act VII of 1876. The Government, he said, had been reluctant to ask the Council to amend a law which had so recently come into operation. But they were advised that the law as at present worded was in one point defective and might open the door to litigation, which it was desirable to avoid. He need not remind the Council that the whole principle of the Act of 1876 was that registration should be based upon the fact of possession. That was the principle of the former law, Regulation VIII of 1800, and it was also the principle of the Act of 1876. Accordingly, section 52 of that Act provided that if an applicant for registration applied to the Collector, and if the Collector found the fact of possession proved, he should register the applicant's name, but not otherwise. But the framers of the Act considered it a very important object that every acre of land in a district should be accounted for and registered as in the possession of some proprietor; and for this purpose provision was made for cases in which the proof of possession in respect of any property might not be absolutely satisfactory. And this was done by section 55 of the Act, which provided that if an application for registration was made, and the Collector was not satisfied that the applicant was in possession of the land in regard to which registration was asked for, he should make a summary enquiry as to the right to possession, and deliver over possession accordingly and make the necessary entry in the register. MR. REYNOLDS had no doubt that it was intended that the procedure under section 55 should be supplementary to that provided by section 52, and should never be had recourse to in cases in which the possession of any person was distinctly proved. But owing to some want of clearness in the wording, claims had been made under that section by persons who were decidedly not in possession of the land in respect of the registration of which application was made, whereas other persons were in adverse possession of the land; but relying upon the wording of section 55, such persons had required the Collector to adjudicate summarily the right to possession. It was certainly not intended that claims of that kind should be made under the section, but the wording of the section did not absolutely prohibit it. It was therefore necessary to amend the law by introducing a few words to show that the question of determining the right to possession could only be raised in cases in which it was not proved that any person was in possession.

With regard to this Bill, MR. REYNOLDS proposed to take the same course as with respect to the Bill to amend Bengal Act V of 1866. He now only asked for leave to introduce the Bill, and did not propose to refer it to a Select Committee, but would ask the Council to pass the Bill at its next meeting.

The HON'BLE THE ADVOCATE-GENERAL said that he entirely supported the measure which had been introduced by his hon'ble friend Mr. Reynolds. The words of the section which it was intended to amend were certainly open to objection, and not unlikely to be read in a manner not contemplated by the legislature. It was quite clear that the general intention of the Act was to grant registration only where actual possession was proved. But by the section under notice it was intended to provide summary investigation of title in cases where the person in possession had died intestate, and persons claiming adversely as heirs had respectively ostensible possession of certain portions of the property in respect of which registration was required by receipt of the rents thereof. It was to meet cases of that sort that section 55 of the Registration Act was framed. If section 52 and the section in question were read together carefully, there would not be much doubt as to what was the intention of the legislature; but as the section as it now stands was calculated to create some doubt, it was prudent to amend it at once, in order that the intention should be rendered clear, and that the officers of Government and the public at large should not be led into controversies which the Act was never intended to raise. Under the circumstances, the ADVOCATE-GENERAL thought the course proposed in bringing in this Bill to correct an error which was patent on the face of the law was a proper one.

The motion was agreed to.

SETTLEMENT OF PRIVATE ESTATES.

The Hon'ble Baboo Kristodas Pal moved that the Bill to provide for the settlement of the rent of lands on the application of landholders or ryots be read in Council. At the last meeting of the Council he explained the object of the Bill which he then obtained leave to introduce. The details of the Bill were very few. As the present Bill proceeded upon the lines of the Bill which had already been passed by the Council defining the powers of settlement officers in regard to the enhancement of rent in Government Estates, he had endeavoured to accomplish his object by making the few provisions of this Bill fit into the provisions of that Act. In the first place he proposed that a mouzah should be the minimum limit of area for operations under this Bill, and that the mouzah should correspond with the same recorded in the Survey Register. Then it was provided that on the application of a landholder or a body of landholders, or of sharers registered under section 10 or 11 of Act XI of 1859, or (where the property was joint or undivided) on the application of landholders whose interests represented three-fourths of the property, the Collector shall appoint a Deputy Collector for the settlement of the rent of the land. When he referred to a body of landholders, he meant petty landholders who might have definite shares in a mouzah, but might not hold a mouzah wholly. In these cases, he thought, they ought to be allowed to combine and move the machinery of the law if they liked. In the same way ryots would be competent to move the Collector to appoint a Deputy Collector for the settlement of rents, if three-fourths of their body combined to make an application to the Collector. Then it was enjoined that, if all the shareholders in a mouzah did not join in the application, those who might refuse to join would not be entitled to enjoy the benefit of the law; if they wished to enhance the rent, they must go through the usual course of a civil suit, and be prepared to bear the cost of harassing litigation. Then section 5 authorized the Deputy Collector to exercise the necessary powers for settlement and also for measuring land, as far as practicable, in accordance with the provisions of Bengal Act VIII of 1869. Section 6 provided that where there might be a dispute as to the person liable to pay rent, the Deputy Collector should hold an enquiry and declare the person actually paying rent to be the person liable, or he might declare summarily who was the person liable to pay rent, subject to a suit in the civil court; so that, if an injustice were committed by the summary award, there would be room for redress. There would be thus two things for the Deputy Collector to determine—firstly, who was to pay the rent; and secondly, what amount.

Then the rent fixed by the Deputy Collector, unless reversed by the decision of a civil court, should have currency for ten years, so that the land might have rest for that period.

As the proceedings under this Bill would be initiated on the application of landholders or ryots, the cost should of course be borne by the applicants; that was to say, the whole of the cost of measurement, and so much of the salary of the Deputy Collector as would cover the time *bonâ-fide* spent in the conduct of the settlement. It would be necessary for the Board of Revenue to frame rules to calculate the cost of the proceedings, and in that view the Board would doubtless require the Deputy Collector to keep a diary, so as to ascertain what time he had devoted to this particular work, for it would not be fair if only one hour in the day was devoted to the work, to debit to it the whole salary of the Deputy Collector for that day. The Board, he proposed, would lay down rules on this subject which would be fair and equitable. At the same time Baboo Kristodas Pal thought the Government might see fit to remit the costs in special cases in which the public interests might require a re-settlement of an estate.

The provisions for the enhancement or abatement of rent were contained in sections 9 and 10 of the Bill. It was not proposed to vary the existing principles in any way. He wished he could suggest the modification of some of those principles which were vague, indefinite, and unworkable, but, as he had observed at the last meeting of the Council, the Government had not made up its mind on that subject, and he would not therefore tread upon that forbidden ground. He should, however, observe that

this Bill did not pretend to solve the problem of the enhancement of rent: so long as the principles upon which rent was to be enhanced were not definitely and satisfactorily settled, that problem could not be said to be solved. But if the Council thought fit, that much vexed question might be taken into consideration.

The remaining sections followed those of the Bill already passed by the Council with regard to the settlement of Government Estates, and he need not therefore enter into them. He did not propose that the Bill should be passed in a hurry. It would be published and forwarded to the Revenue Officers of the Government for opinion, and next winter the Bill would be revised in the light of the opinions which it was hoped would be received from both official gentlemen and the public in general. He concluded by remarking that he was indebted to his hon'ble friends Messrs. Reynolds and Mackenzie for the material help they had given him in settling the details of the Bill.

The motion was agreed to, and the Bill referred to a Select Committee, consisting of the Hon'ble the Advocate-General, the Hon'ble Mr. Mackenzie, the Hon'ble Mr. O'Kinealy, the Hon'ble Baboo Issur Chunder Mitter, the Hon'ble Rajah Pramatha Natha Roy, the Hon'ble Baboo Mohini Mohun Roy, and the mover.

The Council was adjourned to Saturday the 6th April.

Cases of cholera have been reported from Bagmara and Beauleah town.

In the Terai the land is being prepared for the sowing of *bhadoi* rice, and in some places seed has been cast. In the Hills the young crops of Indian-corn and the millets (*murwa*, *kagone*, and *sama*) are doing well.
Rajshahye and Cooch Behar Divs. 16	Jalpigoree, „ 30 „	Nil	Weather—very hot during the first half of the week; now cool and pleasant. Nothing to report about the crops, but rain would be of advantage, as more usually falls at this period than there has been this year.
	Cooch Behar, „ 27 „	Nil	Weather—very hot for the season. *Biri dhan* is being sown. Tobacco is still being cut. Rain is threatening, and this will injure the uncut tobacco, but will benefit the *biri* sowings. The price of rice has risen to Rs. 3-12 per maund. Public health is good.
	Eastern Districts.		
Dacca Div. 17	Dacca, Mar. 30 '78	0·10	Weather—very hot, but cooler during the last two days in consequence of a very high wind from the south-east. The prospects of the crops are good. The sowing of paddy is reported to be over in Moonshegunge.

No.	District, and date of return	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.—(*Continued.*)			
	***Eastern Districts.*—(Contd.)**		
DACCA DIV.—(Contd.)			
19	Backergunge, Mar. 28 '78	Nil	Weather—hotter than usual. Rain is wanted both for the crops on the ground and for ploughing. The public health has not been good. There have been deaths from cholera, small-pox, and fever in many parts of the district.
20	Mymensingh, „ 29 „	Nil	Equinoctial storms are threatening Ploughing is in progress
21	Tipperah, „ 29 „	Nil	Weather—fair, getting gradually hotter. *Boro dhan* promises well.
CHITTAGONG DIVN.			
22	Chittagong, „ 28 „	Nil	There have been strong winds during the last few days. The nights are cool The prospects of the cold-weather crops are good. The mangoes were blighted by fogs a fortnight ago. Rice is selling from 10 to 16 seers per rupee.
23	Noakholly, „ 28 „	Nil	Weather—seasonable. State and prospects of the crops are favorable. The cultivators are very busy in preparing their lands for the early rice crop. Public health is generally good
24	Chittagong Hill Tracts, „ 26 „	Nil	Weather excessively hot at noon throughout the week. The hill people have begun to burn their *jooms*. The *aus* paddy plants are being transplanted. The gathering of tobacco still continues.
	Hill Tipperah, „ 27 „	Nil	There has been no rain during the week, and the heat is increasing The only crop on the ground is *boro rice*, which is doing well. Cholera has somewhat subsided.
BEHAR.			
PATNA DIVN.			
25	Patna, Mar. 30 '78	Nil	Weather—unusually hot Strong westerly winds prevail. The *rubbee* harvest is nearly over and the grain is being threshed out. Wheat and barley will give a fair outturn, but the general result of the *rubbee* harvest is anything but satisfactory, owing to the almost total destruction by caterpillars of *mawar*, peas and other pulses, and the partial destruction of gram and linseed. Poppy and *rahar* have suffered from the same cause, and the general prospects of the people are anything but bright, especially in the Sudder sub-division Cholera has appeared in Barh sub-division, but not in an epidemic form. There have also been a few cases in the Sudder sub-division, but it has not assumed an epidemic form
26	Gya, „ 30 „ Aurungabad	Nil 0·08	Hot weather is well established. Maximum thermometer in the shade 107·4° The *rubbee* harvest is promising. It is reported as half over in Nowada with an average outturn. The general average of the district is, however, believed to be under 8 annas. Hail has done some harm in Aurungabad to crops already much injured by insects. After an unusually healthy season hitherto, cholera has appeared in Gya town.
27	Shahabad, „ 30 „	Nil	Weather—hot, with westerly wind. The harvesting of the *rubbee* crops is nearly over As observed in the previous week, these crops have been greatly damaged by catterpillars and blight Sugarcane is being planted. Public health is generally good In the Bhubooah sub-division, however, the occurrence of a few cases of small-pox has been reported.
28	Durbhunga, „ 30 „	Nil	The mornings are still cool, but the days are hot, with strong westerly wind. The *rubbee* crops are nearly harvested. The outturn is expected to be up to the average; but on this head special information will be furnished in a later report. Cholera has been reported from some villages towards the east.
29	Monufferpore, „ 30 „	Nil	Weather—warm, with strong west wind The *rubbee* crops are being harvested with a fair outturn Indigo sowing is very unfavourable. Mango continues to be promising.
30	Sarun, „ 30 „	Nil	Weather—hot, with strong west wind and dust-storms during the middays. There has been no rain during the week The bulk of the *rubbee* crops has been gathered; the outturn will be 12 annas. The spring crops are coming on well, but rain is urgently required to promote their growth. Prices are stationary. Public health is good.
31	Chumparun, „ 30 „	Nil	Weather—getting very hot. The prospects of the crops still continue the same Indigo sowings have been completed; the prospects are not good; the plant lacks moisture.
BHAGULPORE DIVISION.			
32	Monghyr, „ 30 „	Nil	Weather—hot, with west wind. The *rubbee* crops are being reaped with a good outturn.
33	Bhagulpore, „ 30 „	Nil	Weather—hot, with strong westerly wind No crops on the ground at present. The mango gives a good promise. Cholera is rapidly spreading.
34	Purneah, „ 30 „	Nil	Weather—dry and hot, with westerly wind. The *rubbee* crops have been good. The *bhadoi* and *aghani* cultivation is progressing favourably.
35	Maldah, „ 30 „	Nil	Weather—becoming hot. State and prospects of the crops continue to be satisfactory. Prices are very high. Course rice is selling at 12 seers per rupee in many places. Cholera has much abated.
36	Sonthal Pergha., „ 31 „	Nil	Weather—getting very hot. The outturn of wheat has been rather less than the average, and that of *rahar* has been average. There is hardly anything now standing on the ground. Cholera and small pox still continue at Deoghar, though in a less degree. They have disappeared from Dumka.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn. 37	Cuttack Mar. 30 '78	Nil	Weather—fine and hot. The *dalua* crop is ripening and the cutting has commenced in some places. A few cases of cholera have been reported.
Orissa Divn. 38	Pooree, „ 28 „	Nil	Weather—warm for the season. At Pooree the sky appears to promise an early fall of rain. *Dalua* rice and *moong* are being reaped. Rain is wanted for ploughing. Exportation of rice is still going on. Common rice costs a rupee for 10½ to 15½ seers, and in the salt tracts for 10½ seers, being cheaper there than in the previous week. Water in the wells and tanks is failing. In parts of Gope in the east of the district, where the loss of crops was heavy, the dearness of rice is felt severely by the labouring classes. Cholera is reported.
Orissa Divn. 39	Balasore, „ 29 „	Nil	Weather—very hot and dry. Ploughing for the new crop proceeds. Sporadic cholera is frequent.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, Mar. 29 '78	0·02	Weather—seasonable and very warm. The settled weather of the week has considerably improved the prospects of the *mohwa*, which is now being rapidly gathered. A continuation of the present weather is much to be desired.
41	Lohardugga, „ 30 „	Nil	The weather has been seasonable during the week and the prospects of the *mohwa* crop are now good, and the *rubbee* crops do not appear to have been so much damaged by last week's rain and hail as was then reported.
42	Singbhoom, „ 29 „	Nil	Weather—seasonable Nothing to report about the crops. The district is healthy.
43	Manbhoom, „ 30 „	Nil	Weather—seasonable. It is hotter than in the corresponding month of last year. There is not much to report about the crops. The *mohwa*, which has not been lost, will be benefitted by the steady heat, if the latter only continues Tentative relief works at low rates have been opened in the west of the district. It is too early to judge to what extent they will attract labour. Cholera seems to have ceased in the town of Puralia for the time. An outbreak of small-pox and a few cases of cholera have been reported from the north of the district.

Published for general information.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

This traffic improves, but little business has been effected in this particular staple during February.

Indigo .. .. Mds. 681

This increase is favorable, the indigo season being over.

Iron .. .. ,, 1,557

Due to through booking.

Piece-goods .. .. ,, 3,550

This increase is due to the development of the system and to through booking.

Seeds—Indigo ... ... ,, 4,802

This is the season for importing this seed.

Oil-seeds ... ... ,, 7,941

This is export traffic, and the increase is due to the demand in Calcutta and other markets.

Salt ... ... Mds. 8,776

Due to through booking.

Saltpetre ... ... ,, 12,159

This increase is due to the demand in Calcutta and other markets.

Tobacco ... ... ,, 1,019

The accompanying copy of instructions issued to the Judge of Hooghly regarding the position of Revenue Agents practising as pleaders under Act IV of 1876, is circulated for the information and guidance of all Munsifs in districts in the Lower Provinces of Bengal, where Act VIII (B.C.) of 1869 is in force.

From J. CRAWFURD, Esq., *Officiating Registrar of the High Court of Judicature at Fort William in Bengal, to the Judge of Hooghly,—No.* 680, *dated Calcutta, the* 16*th March* 1878.

In reply to your letter No. 219, dated the 14th ultimo, I am directed to say that it is not necessary that Revenue Agents acting in rent suits in the Civil Courts should be enrolled under Section 12, Act XX of 1865. All that is necessary is, that the Civil Courts should satisfy themselves that the Revenue Agents hold certificates in force at the time they come in to practise as pleaders under Act IV of 1876.

2. The position of these Revenue Agents in the Civil Courts, I am to point out, is not that of Pleaders. The latter are enrolled in the Courts in which they practise, and are liable to punishment by the High Court in case of misconduct. Revenue Agents on the other hand are not so enrolled, and are subject, in case of misconduct, to the orders of the Board of Revenue. There can therefore, in the opinion of the Court, be no hardship in requiring the latter, when they act in the Civil Courts, to prove their authority to represent the person for whom they act, and this should be done in every case.

CRIMINAL.

No. 2, *dated the* 23*rd March* 1878.

Inconvenience having resulted from delay in the submission, for the Court's orders, by Sessions Judges, of cases in which they have disagreed with the verdict of the jury, enquiry was made as to the cause to which the delay was due, and it has been reported that the records had been detained in the Sessions Judge's Court in order that copies might be made of the proceedings for the use of the Government pleader. The Court is therefore pleased to direct that after the delivery of the verdict by the jury in such cases, no delay should be permitted to occur in the submission of the records with the Sessions Judge's letter of reference. It is open to the Government pleader and to the pleader for the accused to make notes of the evidence as the case proceeds. If after the trial is concluded copies of any part of the proceedings are required, it will be necessary that they should be made on application in the High Court after receipt of the record.

No. 3, *dated the* 23*rd March* 1878.

The attention of all Sessions Judges is called to the instructions, extracted below, contained in paragraph 4 of the Court's Circular Order No. 7, dated 11th March 1870, which should invariably be followed in the preparation of Sessions Statement No. III :—

"Adverting to column 4, Statement No. 3....., the Court observe that there is a diversity of practice in numbering the accused, some officers giving fresh numbers to the prisoners in each case, while others continue the series throughout the year. The Court direct that one series of numbers should be employed for each session."

No. 4, *dated the* 30*th March* 1878.

In paragraph 2 of Circular Order No. 6, dated 2nd July 1860, it is directed that an Appellate Court shall, in every case, except as otherwise provided in that Circular Order, certify its decision to the Court or Magistrate from whose decision the appeal has been preferred. To remove doubts which have been raised as to the intension of this order, the Court is pleased to explain that what is required is, that the Appellate Court should at once communicate the decision arrived at to the Court which has to carry out its order. A copy of the formal order passed, and of the judgment on appeal, should, however, always be attached by the Appellate Court to the record of the original Court, and returned to it therewith.

No. 5, *dated the* 30*th March* 1878.

Sessions Judges are requested to ascertain and report whether the form of Vernacular Statement No 9, prescribed by paragraph 7 of Circular Order No. 11, dated 1st December 1854, of the late Sudder Court, is still in use in any of the Courts in their districts.

Sheriff's Office, the 3rd April 1878.

NOTICE is hereby given that the Fourth Criminal Sessions of the year 1878, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Monday, the Twenty-ninth day of April instant, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

The following Report of a Select Committee, with the Bill as amended by them, is published for general information:—

We, the undersigned members of the Council of the Lieutenant-Governor of Bengal to whom the Bill to consolidate the law relating to the excise revenue in the Presidency of Fort William in Bengal was referred, have the honor to make the following report.

We have recast the Bill on the model of the Northern India Excise Act, 1871.

To shorten the language of the Bill we have added a definition of "exciseable article," which includes spirituous and fermented liquors and intoxicating drugs as defined by the Bill.

We have also added definitions of "fermented liquor" and "spirituous liquor," and have struck out the definitions of "Bengal rum" and "country spirit."

We have struck out as unnecessary the section relating to distilleries worked after the European method, and situated within twenty miles of Calcutta.

We have inserted "siddhi" in the definition of "intoxicating drugs."

We have provided that wholesale vendors of spirituous and fermented liquors in Calcutta shall take out a license under the Act.

We have redrafted the section defining a retail sale, and have added a new clause to make it clear that a sale of an assortment of liquors comes under the operation of the section.

We have inserted a section respecting illegal possession of exciseable articles, and a section restricting the sale of ganja and bhang.

We have struck out the clause empowering the local Government to fix the excise duty leviable on spirit manufactured at distilleries. This is already provided for in the Indian Tariff Act, 1875.

We have inserted sections 26, 27, 28, 29, and 30 of the Northern India Excise Act, 1871, in that part of the Bill which deals with the farm of excise duties.

We have provided that the local Government may appoint any person to be Superintendent of any branch of excise revenue in any district or place.

We have transferred the jurisdiction of Justices of the Peace in excise cases in Calcutta to the Presidency Magistrates.

We have struck out the provisions relating to the exportation of spirits, as these matters are now regulated by the Sea Customs Act, 1878.

We have inserted a general section on the subject of confiscation.

We have condensed several of the sections dealing with penalties.

We have made the provisions relating to imprisonment on a subsequent conviction applicable only to cases where a fine of Rs. 200 or upwards may be imposed.

We have struck out the section relating to the recovery of fines, as the Criminal Procedure Code and the Presidency Magistrates' Act contain provisions for such recovery.

We have provided that imprisonment may be either simple or rigorous, as the Magistrate shall direct.

We have provided that confiscated articles shall be made over to the Collector for sale or disposal under rules of the Board.

We have struck out the section relating to actions against the Collector or excise officers and payment of money into Court. These matters are already provided for in the Code of Civil Procedure.

We have made other alterations in the wording and arrangement of the Bill.

NEW MEMBER.

The Hon'ble MR. BUCKLAND took his seat in Council.

REGISTRATION OF HACKNEY CARRIAGES.

The HON'BLE MR. REYNOLDS moved that the Bill to amend Bengal Act V of 1866 be read in Council. He said that at the last meeting of the Council

he asked leave to introduce this Bill. The Bill was not then in the hands of the members, and one hon'ble member expressed a doubt whether a Registrar of Hackney Carriages appointed by the Corporation would be in all respects an officer of the Corporation, and come under the general rules which regulated the appointment and dismissal of officers of the Corporation. To meet that objection MR. REYNOLDS had prepared an amendment in substitution for the second and third paragraphs of section 1 of the Bill as it stood. Instead of providing that the officer so appointed should be subject to the order, disposition, and control of the Chairman of the Corporation, so far as the Town and Suburbs of Calcutta are concerned, he proposed to say that the officer so appointed shall, as far as the Town and Suburbs of Calcutta are concerned, be subject to the order, disposition, and control of the Corporation, and that the appointment and removal of the registering officer shall be subject to the provisions of section 36 of the Calcutta Municipal Consolidation Act, which provided that no officer, whose salary exceeded Rs. 200 per mensem, should be appointed to, or removed from, his office without the sanction of the Commissioners at a meeting. At present MR. REYNOLDS only moved that the Bill be read in Council.

The motion was agreed to.

On the application of the HON'BLE MR. REYNOLDS the Rules for the conduct of business were suspended to enable him to move that the Bill be taken into consideration and passed.

The HON'BLE MR. REYNOLDS moved that the following be substituted for the second and third paragraphs of section 1 of the Bill:—

"But the Local Government may, if it think fit, empower the Corporation of the Town of Calcutta to appoint such registering officer, and any officer when so appointed shall, so far as the Town and Suburbs of Calcutta are concerned, be subject to the order, disposition, and control of the said Corporation.

"The appointment and removal of such registering officer shall be subject to the provisions of section 36 of the Calcutta Municipal Consolidation Act, 1876."

The motion was agreed to.

The HON'BLE MR. REYNOLDS then moved that the Bill be passed. He mentioned at the last meeting that it was hoped that the passing of this Bill would effect a considerable saving in the cost of working the Act, and it was therefore desirable that it should be passed and come into operation as soon as possible.

The motion was agreed to and the Bill passed.

REGISTRATION of ESTATES.

The HON'BLE MR. REYNOLDS moved that the Bill to amend Bengal Act VII of 1876 be read in Council. He explained the object of this Bill at the last meeting, when asking for leave to introduce the Bill, and he believed it was generally admitted that the Bill was necessary and unobjectionable.

The motion was agreed to.

The Rules for the conduct of business having been suspended, the HON'BLE MR. REYNOLDS moved that the Bill be taken into consideration and passed. He mentioned at the last meeting that he intended to adopt this course, and as no objection had been offered either to the principle of the Bill, or the way in which it had been drafted, he hoped that the Bill would now be passed.

The motion was agreed to and the Bill passed.

CLEANSING AND ERECTION OF LATRINES IN FIRST CLASS MUNICIPALITIES

The HON'BLE MR. MACKENZIE moved that the report of the Select Committee on the Bill to provide for the cleansing and erection of latrines in first class municipalities be taken into consideration in order to the settlement of the clauses of the Bill, and that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee. The Select Committee, he said, in considering the Bill had made one or two somewhat material amendments. The first of these arose from the fact that there were certain parts of the Suburbs in which it was not desirable to introduce such an elaborate system as that which was known as Hulalkore. Accordingly the Committee provided that the system might be extended, not necessarily to the whole of a municipality, but to any part of it. It was also made clear that the rate under this Bill should not be a fixed percentage

upon the valuation of holdings, but on a scale which was to be fixed by the Lieutenant-Governor in communication with the Commissioners in meeting. The Committee had had some difficulty in determining what the minimum rate should be, and indeed it had been suggested that no limits should be inserted in the Act, Government being left to adjust the scale to suit the circumstances of each place. On the whole, however, it was considered desirable that some limit should be inserted in the Bill, and the question had then been how to reconcile the conflicting views of the Howrah and Suburban Municipalities. The original proposal was that the lowest limit should be a rate not exceeding Rs. 3 where the valuation of the holding amounted to, or was less than, Rs. 50. That did not suit the circumstances of Howrah. The Howrah Municipality proposed that the minimum rate should be Rs. 1-8 on a holding whose annual valuation amounted to, or was less than, Rs. 25. That, again, did not suit the circumstances of the Suburban Municipality. It was therefore resolved as a compromise that the minimum rate should be Rs. 3 on a holding, the annual valuation of which was Rs. 25 or less. It would not be necessary to impose the full fee in every case. The rates at Howrah would be less than those to be imposed in the Suburbs, where the rates proposed to be adopted, though higher than those for Howrah, would still be less than those now levied. At present a rate of from 8 annas to 10 annas was levied upon a holding of Rs. 25; whereas 4 annas would be the maximum fee which the Suburban Municipality could levy under this Bill on holdings of similar value, and with that rate they were quite content.

The Committee had provided for the giving of public notice annually, of the scale of fees fixed and for the reduction or remission of the fee on the ground of poverty. They had also swept away entirely the section imposing a joint liability upon the owners of holdings and the Commissioners in respect of the construction of public latrines; it did not appear to be the duty of owners to provide public latrines, but only latrines for their tenants. It was the duty of the Commissioners to provide public latrines for the general population and for those who came within the municipality to work for the day, and the Committee had therefore left the construction of public latrines to be undertaken either from the general fund, or from the surplus proceeds of fees under this Act.

The Committee had made a few other amendments of small importance, and Mr. Mackenzie had one or two further amendments to propose on behalf of the municipalities interested, whose suggestions had only reached him at the last moment, in addition to those of which notice had been given, some of which had been suggested by the learned Advocate-General.

The motion was agreed to.

On the motion of the Hon'ble Mr. Mackenzie, the words "three rupees" were substituted for "one rupee eight annas" in the first line of the second paragraph of section 3.

Verbal amendments were, on the motion of the Hon'ble Mr. Mackenzie, made in sections 7, 8, 10, 13, and 15, and in the preamble of the Bill; and to section 19 the following words were added:—

"And the word "holding" in this Act shall mean a holding as already ascertained for the purposes of assessment under the aforesaid Bengal Municipal Act, 1876."

The Hon'ble Baboo Isser Chunder Mitter moved an amendment which had been suggested to him by the Chairman and Vice-Chairman of the Suburban Municipality. He said that section 203 of Act V of 1876 provided that where the owner or occupier of any private privy neglected or refused to keep the same in a proper state, he should be liable to a fine not exceeding Rs. 50. It was proposed by this Bill to make the Commissioners' establishment liable for the duty of cleaning privies. But it had been suggested that keeping a privy in a proper state included something more than keeping it clean; that the privy should be kept in proper repair, and that proper receptacles should be provided therein, otherwise it would be impossible to clean the privy properly. He therefore moved that the following proviso be added to the section:—

"Provided that such privy shall be kept in a proper state of repair, and that such necessary vessels and receptacles shall be provided as may be directed by the Commissioners."

The Hon'ble the Advocate-General remarked that section 203 of the Bengal Municipal Act did not apply to the repairs of privies; it merely

referred to their cleansing. The words "proper state" in that section referred, according to the context, to drains, privies, and cess-pools, and simply meant a proper state of cleanliness The proviso which had been proposed would conflict with the existing law, and he therefore thought that the Council ought not to agree to its introduction.

After some conversation the motion was negatived.

On the motion of the HON'BLE MR. MACKENZIE the Bill was then passed.

RURAL POLICE IN HAZARIBAGH AND LOHARDUGGA.

The HON'BLE MR. O'KINEALY moved that the Report of the Select Committee on the Bill for the regulation of the rural police in the districts of Hazaribagh and Lohardugga be taken into consideration in order to the settlement of the clauses of the Bill, and that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee.

The motion was agreed to.

The HON'BLE BABOO KRISTODAS PAL said he had given notice of an amendment with a view to enable the Deputy Commissioner to recover money which might be embezzled or misappropriated by a headman. The Bill provided no remedy against a headman in such a case. He might, it was true, be punished under the Penal Code, but who was to make good the loss—the landholders or the parties liable to the rural police cess? It had, however, been pointed out by the hon'ble mover of the Bill that under the Penal Code a headman, who was convicted of embezzlement or misappropriation, might be sentenced to both imprisonment and fine, and that the amount of the fine might be applied to make good the loss which might have been sustained. Then another difficulty had been pointed out by the hon'ble member, namely, that if the provisions of Act XII of 1850 were extended to village headmen, security must under that Act be taken from them. For these reasons, on second consideration, BABOO KRISTODAS PAL thought proper to withdraw the amendment of which he had given notice.

On the motion of the HON'BLE MR. O'KINEALY the Bill was then passed.

CONSOLIDATION OF THE EXCISE LAW

The HON'BLE MR. REYNOLDS moved that the report of the Select Committee on the Bill to consolidate and amend the law relating to the Excise Revenue in the Presidency of Fort William in Bengal be taken into consideration in order to the settlement of the clauses of the Bill, and that the clauses of the Bill be considered for settlement in the form recommended by the Select Committee. The Bill, he said, had been re-arranged on the lines of the Excise Act of 1871, and was in substance a reproduction of Act XXI of 1856, a few sections taken from Act XI of 1849 having been inserted in their proper place to provide for the excise administration of Calcutta. He believed that the most substantial alteration in the law that had been made was the insertion of a provision that in Calcutta wholesale vendors of exciseable articles should pay fees for their licenses: the Select Committee could find no reason why wholesale vendors in Calcutta should be exempted, whilst elsewhere, throughout the province, they were required to be licensed. The other alterations which had been made by the Committee were completely set out in the report and needed no comment.

The motion was agreed to.

The HON'BLE MR. REYNOLDS said that he did not propose to ask the Council to pass the Bill that day, and as he had a few verbal amendments to propose, he would suggest that the further consideration of the Bill be postponed.

The further consideration of the Bill was accordingly postponed.

COURT OF WARDS.

On the motion of the HON'BLE MR. REYNOLDS, the Hon'ble Mr. Buckland was added to the Select Committee on the Bill to amend the law relating to the Court of Wards within the provinces subject to the Lieutenant-Governor of Bengal.

The Council was adjourned to Saturday the 13th instant.

DANKOONEE DRAINAGE WORKS.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 5th April 1877.

READ—

Two letters from the Commissioner of Burdwan, dated the 14th December 1877 and the 12th February 1878, reporting the completion of the proceedings of the Drainage Commissioners appointed under Act V (B.C.) of 1871, and the settlement of the appeals preferred against their allotment of the expenditure incurred for the purposes of the Act.

THE Hooghly and Burdwan Drainage Act was passed by the Bengal Council in 1871, in order to provide the necessary legal machinery for the execution of a comprehensive scheme of drainage which should permanently improve the sanitary condition of the swampy tract of country lying to the west of the river Hooghly between Serampore and Bally. Owing to the silting up of the water-courses and khals leading from the swamps to the river, the natural drainage of this tract had been almost entirely obstructed, and the water-logged condition of a large area of land had not only stopped the extension of cultivation, but was also believed to be the main cause of a persistent and fatal type of malarious fever. After a careful examination of the locality by a skilled engineer, it was evident that the measures required for its improvement were too extensive to be left to the independent action of the proprietors of the lands concerned, and that the drainage of the tract could only be effected by the agency of Government under the authority of a special Act. Until further experience had been gained of the difficulties which might have to be encountered, it was deemed inexpedient to frame a measure which should be applicable to the whole of Bengal, and the operation of the Act was therefore limited to the execution of a particular project—the drainage of the Dankoonee bheel.

2. After the Act had come into force, the plans and estimates of the scheme were modified in some material points, and the commencement of the work was therefore delayed until January 1873. The land required for the works was formally acquired within the next year, and the entire project was completed in August 1875, rather more than two years and a half after the works had been commenced.

3. At an early stage of the operations, the limit of the land which might possibly derive benefit from the drainage works was delineated by a contour line taken at an elevation of 15 feet above sea level, and the area of this entire tract was ascertained by subsequent measurements to be 56,419 beeghas, made up of a central block of 10,000 beeghas, which was entirely unfit for cultivation, and an outside belt of 46,419 beeghas which was susceptible of considerable improvement. A careful local enquiry, made after the completion of the scheme, showed that 6,808 beeghas had been wholly reclaimed by the drainage works, and 29,928 beeghas had been materially improved. The benefits of the scheme therefore had extended to 36,736 beeghas, or about two-thirds of the area included in the original contour line. The rest of the tract remained unaffected by the scheme; that portion of it which was included in the central waste being occupied by tanks and khals or by portions of the works.

4. In determining the annual increase of value arising from the drainage of each class of land, the Commissioners found that the reclaimed lands which had before been unfit for cultivation were at once leased out by their proprietors at a rent of Rs. 2-8 per beegha. As no rent at all had previously been paid, the rate of Rs. 2-8 a beegha was fairly taken to represent the increment of value caused by the drainage of the land. In the case of lands which had merely been improved, the question was not so simple; but after instituting careful local enquiries in every village, and comparing the rents actually paid by the ryots since the completion of the drainage with those ruling before, the Commissioners found that the aggregate increase of rent throughout the improved area amounted to Rs. 25,988-11, or fourteen annas per beegha. Having thus determined the annual increment of value on each class of land, and having further ascertained that fifteen years' purchase represents the fair market value of land in the interior of Hooghly, the Commissioners estimated the increased value conferred on improved lands at Rs. 3,89,831, and that on reclaimed lands at Rs. 2,48,687, the total value of the improvements resulting from the works being Rs. 6,38,518.

5. The total expenditure incurred on the scheme may be classified as follows:—

	Rs.
Works	2,97,466
Land acquisition	88,792
Survey and record of rights	21,816
Maintenance and repairs	2,055
Total ...	4,10,129

The whole of this sum was advanced by Government under section 17 of the Act. There was some question as to the mode of calculating the interest to be charged on the amount, but it has been decided that section 20 contemplated the payment of simple interest only. Including interest, therefore, the total amount to be recovered from the proprietors on the 30th June 1877, the date of the apportionment of cost, was Rs. 4,82,699. At a meeting of the Commissioners held on the 14th December 1876, it was resolved to allot the costs of the scheme among the proprietors, by charging Rs. 11-4 for every rupee of enhanced annual value. According to the calculations then made, it appeared probable that an assessment on this principle would yield Rs. 4,80,000, which would suffice to meet the Government demand. But when the allotment was completed, it was found that the assessment on the proprietors would only produce Rs. 4,78,895, while the accumulation of interest had raised the Government demand to Rs. 4,82,699. To avoid the necessity of revising the elaborate calculations which had been made, the Commissioners decided to transfer to the credit of Government a sum of Rs. 5,231 which had been realized from the proceeds of fisheries under section 40 of the Act, and from other miscellaneous sources, thus reducing the liability of the proprietors to Rs. 4,77,467, which is covered by Rs. 4,78,895, the amount apportioned against them. This arrangement, as well as the inclusion in the allotment of the charges incurred for maintenance and repairs up to the end of June 1877, has the approval of the Lieutenant-Governor. The report of apportionment has been duly published in the manner required by section 25 of the Act, and the Collector should now proceed to serve notices upon the proprietors under section 28. Only five appeals have been preferred against the award of the Commissioners, and it may be hoped from this general acceptance of their arrangements that no great difficulty will be experienced in realizing the advances which have been made by Government.

6. Looking to the fact that the Dankoonee drainage scheme was of the nature of an experimental measure, the Lieutenant-Governor considers that the results are fairly satisfactory, though the cost of the work seems to have been much higher than was anticipated. A large area of swampy and useless land has been rendered fit for cultivation, and a still larger area has been materially improved. It is perhaps premature at present to attempt to forecast the effect of the operations upon the health of the inhabitants of the villages which have been drained; but there seems to have been a perceptible abatement of the malarious fever which formerly prevailed, and there can be no dispute as to the belief of the villagers that a great benefit has been conferred upon them. It is also clear that where the people understand the nature and purpose of drainage works, Government may look for intelligent advice and co-operation in carrying them out.

7. Considerable delay occurred in allotting the costs of the scheme among the different proprietors, and the charge for interest has in consequence been needlessly heavy. The work of apportionment, however, was difficult and complicated, and involved the decision of questions for the settlement of which the Act had provided a somewhat cumbrous machinery. With the completion of the apportionment the powers of the Commissioners have ceased, and the duty of maintaining the works in efficient repair has passed into the hands of the Collector. It only remains for the Lieutenant-Governor to express the thanks of Government to the Commissioners and to all the officers concerned for their services in bringing the scheme to a satisfactory conclusion.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,

Secretary to the Govt. of Bengal.

No. 56, dated Howrah, the 14th December 1877.

From—A. SMITH, Esq., M.A., Offg. Commissioner of the Burdwan Division,

To—The Secretary to the Government of Bengal, Revenue Department.

WITH reference to your No. 727, dated the 21st March last, I have the honor to report that the Dankoonee Drainage Commissioners have completed their apportionment proceedings under section 23, Act V (B.C.) of 1871, and submitted their report, showing the several lands which are chargeable, the names of the proprietors thereof, and the sum chargeable in respect of each; and distinguishing lands which have been reclaimed from those which have been improved.

2. The total expenditure has been Rs. 4,10,129, or Rs. 4,82,699 including interest, and the total sum apportioned Rs. 4,78,895, or Rs. 3,804 less than the total expenditure, including all charges. The Chairman proposes to meet the deficit from the Rs. 5,231-13-11, standing to the credit of the Chairman and Collector on account of the proceeds of fisheries under section 40 and the rents of spoil banks, &c., under section 36 of the Act. The apportionment has been calculated at 11¼ times the annual value* of the lands affected by the scheme.

3. I beg to submit a copy of the Chairman's report* on the apportionment, and to observe that the proposals of the Drainage Commissioners appear to be fair. I shall submit my opinion on them as soon as the appeals now pending before me have been disposed of, and the apportionment finally affirmed by me under section 27 of the Act. They are fixed for hearing on the 22nd instant. The schedules and maps are kept in office for reference in connection with these appeals. They will be submitted to Government in due course.

* No. 106 of the 16th November 1877.

— —

No. 106, dated Hooghly, the 16th November 1877.

From—F. H. PELLEW, Esq., Collector and Chairman of the Drainage Committee, Hooghly.

To—The Commissioner of the Burdwan Division.

I HAVE the honor to forward the report† drawn up by the Drainage Commissioners assembled at the meeting held on the 30th of June 1877, under section 23 of Act V (B.C.) of 1871, with the following observations and remarks, which have been revised under the instructions contained in your No. 310, dated 2nd ultimo. The report consists of statements showing the several lands which are chargeable, the names of the proprietors thereof, and the sum chargeable in respect of each; and the lands which were before the commencement of the works wholly unfit for cultivation have been distinguished from those which were then to some extent culturable, but which have been improved by the said works.

† Already forwarded, see Schedule BI and BII.

2. Before explaining the principle on which the apportionment has been made, a short account of the progress of the works will not be deemed out of place. The Dankoonee Drainage Scheme originated in two reports by Mr. C. C. Ardley, C.E., dated respectively the 25th June 1869 and 7th January 1870. The special bill for the work became law on the 10th May 1871. The plans and estimates of the scheme underwent considerable modifications in the Chief Engineer's office, and it was not till 7th January 1873 that the estimates were sanctioned. The works were commenced on the 15th January 1873, before acquisition of the land required for them. The land was formally acquired under the provisions of Act X of 1870 in the latter part of the year 1873 and the first half of the year 1874, and the works were completed on the 15th of August 1875. The completion report of the officer in charge of the works was received on the 16th August 1875, and the work connected with the survey of, and record of rights in, the lands benefited by the scheme was completed by the end of April last.

3. From the last certificate of advances received under section 19 of the Act from the Examiner of Public Works Accounts it appears that up to the end of April 1877 Rs. 4,08,031-8-7 were advanced from the public funds as expenses for the construction of the works, including cost of maintenance and repairs, incurred after the 15th August 1875 up to the date of that certificate. Subsequently, in answer to a call from the chairman, it was certified by the Examiner of Public Works Accounts that Rs. 4,08,869-2-10 had been advanced by Government from the commencement of the works up to last day of June 1877, the date of the apportionment. To this sum is to be added Rs. 1,260, the cost of lithographing maps of the lands improved and reclaimed by the scheme. The total expenditure on the works amounts, therefore, to Rs. 4,10,129 (omitting fractions of a rupee) classified as follows:—

		Rs.
1.	Works	2,97,466
2.	Land acquisition	88,792
3.	Survey and record of rights, including cost of maps ...	21,816
4.	Maintenance and repairs	2,055
	Total ...	4,10,129

* Evidently meant for "annual increase of value."

4. In the certificate of advances above referred to the interest on the advances up to the 30th April last is calculated at 5 per cent. compound interest, and is stated to be Rs. 74,712-13-7. At a previous meeting the commissioners had taken exception to this proceeding of the Public Works Department, charging compound instead of simple interest on the advances made, and a reference was made to the Examiner of Public Works Accounts on the subject, which, I believe is now awaiting the decision of Government. Subsequently, in compliance with a requisition from this office, the examiner has favoured me with a statement, from which it appears that the interest on the total of the sums advanced (Rs. 4,08,869) from the dates of the respective advances up to the 30th June last is Rs. 72,570, calculated at 5 per cent. simple interest, and that interest has since been running at the rate of Rs. 1,704 per mensem. The total sum to be recovered from the proprietors on the date of apportionment is therefore Rs. 4,82,699, including simple interest at 5 per cent. per annum.

5. From December last the commissioners were engaged in the calculations connected with the apportionment of costs. At a meeting held on the 14th of that month a sub-committee was appointed, consisting of Baboos Peary Mohun Mookerjee, Chandra Kanta Mookerjee, Joggeshore Mookerjee, and Kali Dhone Chatterjee, all drainage commissioners, to carry out the details of the work of assessment At the same meeting it was resolved that the apportionment of costs should be calculated at the rate of Rs. 11-4 for every rupee of improvement, *i.e.*, for every rupee of increased annual rent effected by the undertaking. It was estimated that this rate of apportionment would produce Rs. 4,79,702, or nearly Rs. 4,80,000, a sum which it was expected from the certificate of the Examiner of Public Works Accounts then at hand, would, after meeting the liabilities incurred up to that date, leave over Rs. 12,000 for additional interest, establishment, and other charges up to the time of the completion of the work. The calculations were made in conformity with the above resolution under the immediate supervision of the sub-committee, and in four months' time the Registers BI and BII, 72 in number, showing the details of lands reclaimed and improved, were completed. The actual result of the calculations did not answer the expectation of the commissioners, as, instead of Rs. 4,80,000 as estimated by the committee, they obtained only Rs. 4,78,895. On the other hand, the demand of Government, owing to the rapidity with which interest had been accumulating, came up to Rs. 4,82,899 on the date of the apportionment (30th June 1877).

6. It will be observed that the total of the sums advanced, Rs. 4,10,129 (see paragraph 3), includes Rs. 2,055, the cost of maintenance and repairs up to the end of June 1877, which is recoverable under section 39 of the Act, and as such ought to have been excluded from the amount payable under section 20; but as the item is very small compared with the total outlay, and as it will have to be eventually paid by the proprietors in the proportions of their original contributions, the commissioners have deemed it inexpedient, under the special circumstances of the case, to exclude it from the sum to be apportioned against the proprietors. The Examiner of Public Works Accounts has, however, been requested to keep a separate account of all sums advanced for maintenance and repairs subsequent to the 30th June last.

7. As already stated (see paragraph 4), the liability of the proprietors on the 30th June 1877, including simple interest at 5 per cent. per annum, amounts to Rs. 4,82,699, which exceeds the sums obtained by the rate of apportionment adopted (Rs. 4,78,895) by Rs. 3,804; and it will be noted that this excess is owing to the interest, which has been accumulating at the rate of about Rs. 1,700 per mensem, and which will continue running at the rate, month after month, for some time to come. The commissioners have thought it right not to disturb the calculations already made at considerable expense and trouble; but leaving them untouched, they have adopted an expedient which appears to be the best, under all the circumstances of the case, with a view to realize the entire amount due to Government. It was ascertained on reference to the treasury officer that Rs. 4,443-11, the proceeds of the fisheries under section 40, and the rents of spoil banks, &c., under section 36 of the Act, were standing to the credit of the collector and chairman on the 30th June 1877 as trustee for the proprietors in the accounts of the Hooghly treasury, and that Rs. 788.2-11 had been recovered as costs in land acquisition cases referred to the civil courts. The former item Rs. 4,443-11 is, under the law, payable to the proprietors in the proportions of their respective contributions, and as such can be unobjectionably carried to the credit of Government to reduce their liability. The land acquisition cases were conducted at the expense of the proprietors out of the advances received from Government, and any amount recovered from private parties as costs in these cases belongs of right to the proprietors, and may therefore be set off against the Government demand. These two items, aggregating Rs. 5,231-13-11, have now under orders to the collector and chairman been carried to the credit of Government, reducing the interest which has already accrued from Rs. 72,570 to Rs. 67,338 and the liability of the proprietors from Rs. 4,82,699 to Rs. 4,77,467, which is less than the sum apportioned against them, Rs. 4,78,895, by Rs. 1,428. It will, therefore, be observed that by the arrangement made the sum apportioned against the proprietors covers all the costs incurred, including interest, up to the date of apportionment, and leaves a surplus of Rs. 1,428 available for petty expenses still necessary in the shape of establishment and contingencies to bring the apportionment work to a close. With a view to realize the interest accruing subsequent to the date of apportionment, the commissioners have decided that the sums apportioned against the several proprietors shall bear interest at 5 per cent per annum from the 30th June 1877 up to the date of realization. The commissioners hope that this provision regarding future interest will satisfy all parties concerned.

8. The commissioners expect a favourable decision from Government as to the nature of interest to be charged on the advances made, as it appears to them that section 20 of the

Act only contemplates simple and not compound interest; but it is to be noted here that even charging interest at the simple rate it has already reached a very high figure. The commissioners were not in a position to determine the exact amount of interest which will have to be eventually recovered from the proprietors, as they could not know beforehand the date of payment in each particular case. It was, therefore, quite out of the question to make a forecast of the entire amount of interest that will become ultimately due, and to include it in the costs to be apportioned against the proprietors. The interest is now so heavy that it would be ruinous to spend further time in the precise adjustment of the claim which Government has. The Commissioners have done the best they could, intending in every way to act fairly, and they must rely upon it that Government will not insist upon their adjusting the apportionment more precisely than what they have already done while running up a rapidly accumulating bill.

9. It is next to be ascertained how much land has been benefited by the drainage works. So far back as December 1872 the limit of the tract which might possibly be benefited by the works was delineated on the ground by a contour line taken at a level, fixed by the engineer, of 15 feet above mean sea datum. During 1873 and 1874 the land within this limit was measured in detail, with the exception of a block of jungle in the centre, and its then rental carefully ascertained and recorded. The land thus measured and valued was found to be 46,419 beeghas or 15,206 acres. In 1874 the jungle block in the centre, which was then wholly unfit for cultivation, was found to be 10,000 beeghas or 3,305 acres. The area of the entire tract within the contour line was therefore 56,419 beeghas or 18,511 acres. A record of rights in the lands proceeded *pari passu* whilst the survey was going on, but was only concluded as regards the jungle lands on the 30th of April last.

10. By a second survey, made in the year 1876 after the completion of the works, it was ascertained that of the above area 29,928 beeghas or 9,893 acres of land had been improved, and 6,808 beeghas or 2,232 acres had been reclaimed by the drainage works; or in all 36,736 beeghas or 12,125 acres, being about two-thirds of the total area included within the contour line. The remainder still remains unimproved, being, so far as the central block is concerned, for the most part under water as tanks, khalls, &c., or portions of the works.

11. As is clear from the above account, it may be stated here that in determining the extent of land benefited as well as the amount of benefit the commissioners have been guided solely by the result of carefully conducted local inquiries. The really improved lands have been classified under two heads, A and B, according to the degrees of benefit conferred on them; while the reclaimed lands have been grouped in one class, because, so far as ascertained, these lands had all been equally benefited by the works.

NOTE—In some villages even the B lands have been left unassessed as not improved.

12. The attempt to ascertain the actual increase on profits on improved lands was necessarily surrounded with difficulties. The withdrawal from the marginal lands of the basin of the water to which they had been accustomed imposed upon the cultivators a complete change of crops. The local inquiries into profits began after the first crop on the new system had been reaped, and the Sub-Deputy Collector, Baboo Kedar Nath Ghose, was instructed to guide himself by the results which he found in each village. The rates arrived at are very far below those anticipated at one time. The rates adopted for lower improved lands are full high compared to what the cultivators themselves acknowledge; but, judging by the difference between their admission in ordinary settlement proceedings and the rates actually realized after settlement, the chairman thinks the rates imposed in this case will probably be found practicable. The former rates on the improved lands varied from Rs. 1 to 2 as against Rs. 2-8 obtainable with certainty on the reclaimed lands, so that our average assessment of 14 annas increase is not much. In the reclaimed lands we had the best possible evidence in leases granted by the proprietors the moment the jungle was cleared, so that no doubt hangs over the rate there imposed, which is Rs. 2-8 per beegha.

13. The increased rent or increased annual value of the lands improved, which is due to the drainage works, has been determined by the local inquiries made as above described to be Rs. 25,988-11, giving an average of Rs. 2-10 per acre or 14 annas per beegha. The present rent or annual value of the reclaimed lands, which, it needs hardly be explained, also represents the yearly benefit conferred on them by the works, has been ascertained to be Rs. 16,569, giving an average of Rs. 7-6-10 per acre, or Rs. 2-7-7 per beegha.

14. The commissioners have held that 15 years' purchase represents the fair market value of land in the interior of the district. Fifteen times the annual increment in rent or increase in annual value of the lands will therefore represent the increased value that has been conferred on the lands improved and reclaimed. The increased value conferred on improved lands is therefore Rs. 3,89,831 and that on reclaimed lands Rs. 2,48,687. The value of the total improvements resulting from the work is therefore Rs. 6,38,518.

15. Of the total sum (Rs. 4,78,895) apportioned against the proprietors, the reclaimed lands have been charged with Rs. 1,86,515 or 11¼ times of the annual value conferred on them, and the improved lands with Rs. 2,92,380, being the same multiple of the increased annual value of these lands resulting from the drainage works. This satisfies the conditions of section 22 of the Act. The increased value conferred on improved lands, as already explained in paragraph 14, is Rs. 3,89,831, and the charge against these lands is only Rs. 2,92,380.

16. The average incidence of the cost (including the greater part of the interest accruing on it) on each acre of improved land is Rs 29-8, or Rs. 9-13-4 per beegha, and that on each acre of reclaimed land is Rs. 83 9-4, or Rs. 27-13-8 per beegha. The actual charge on the latter is therefore 2·8 times heavier than that on the former.

17. The two schedules, BI and BII, constitute the report of the commissioners made under section 23 of the Act; all the particulars prescribed in that section, viz. the several lands which have been declared to be chargeable with the cost, the names of the respective proprietors thereof, and the sum charged in respect of each proprietor, are specified in these two schedules. Schedule BI refers to lands which were wholly unfit for cultivation before the commencement of the works, *i.e.*, reclaimed lands, and schedule BII to lands which were to some extent fit for cultivation but were improved by the works; in other words, "improved lands." These schedules are abstracts of the Registers BI and BII prepared with the sanction of Government showing the details of all the lands reclaimed and improved by the Dankoonie Drainage Works. The following figures may be quoted here from the schedules even at the risk of repetition. The total area of the land in Schedule BI is 2,232 acres or 6,808 beeghas; the total number of properties in the schedule from which the charge is to be realized is 239; and the total amount charged against these properties is Rs. 1,86,515. The total area of the land in Schedule BII is 9,893 acres or 29,928 beeghas; the total number of properties in the schedule is 2,367; and the total amount charged against them is Rs. 2,92,380. Thus the entire number of properties assessed is 2,606 in 68 villages.

18. The commissioners have taken steps for the due publication of the report of apportionment. One copy of the schedules was filed in the Collector's office on the 30th June last for information of the public, and extracts from them have been affixed in every village, police thana, and moonsiffee in which lands affected by these proceedings are situate, as prescribed in section 25 of the Act. The commissioners have also resolved to give to the proprietors free of cost copies of all entries relating to them in Registers BI and BII, and of lithographed maps of the lands benefited by the scheme, on their applying for the same.

19. For facility of reference I beg to forward with this two sets of lithographed maps of 55 villages, the lands of which have been improved by the scheme, and of the 13 villages the lands of which have been reclaimed. The lands in the 55 villages actually improved as ascertained at the second survey have been marked in the maps.

20. In conclusion I have to remark that the commissioners have recorded their sense of obligation to the following officers for the very valuable assistance rendered by them in bringing the important work of apportionment to a satisfactory termination, viz. Mr. K. R. Middleton, Deputy Collector, who conducted a part of the preliminary survey and supervised the second survey, the classification and valuation of the lands benefited, and the record of rights; Baboo Kedar Nath Ghose, Sub-Deputy Collector, who was entrusted with the most arduous task of classification and valuation of the land; and Baboo Rajendra Nath Mookerjee, Superintending Surveyor, whose intimate knowledge of the locality combined with steady business habits, had been of material service to the chairman. I have also to record the services of Mr. Whitfield, the engineer who carried out the works, Mr. Keisber, who surveyed the contour line, and Baboo Jaggeshur Mookerjee, Deputy Collector, who acquired the land.

21. Only three appeals have been raised against the apportionment. These are under inquiry. This fact is a strong testimony to the fairness and accuracy of the proceedings.

No. 68, dated Burdwan, the 12th February 1878.

From—W. S. Wells, Esq., Officiating Commissioner of Revenue, Burdwan Division,

To—The Secretary to the Government of Bengal, Revenue Department.

In continuation of this office No. 56 of the 14th ultimo, I have the honor to report that the appeals against the proceedings of the Dankoonee Drainage Commissioners as regards the apportionment of the charge against the proprietors of the lands reclaimed or improved by the work having been disposed of, I have affirmed the report and apportionment, and have passed an order declaring the proportion of sums chargeable against the lands affected by the scheme to be finally determined, and have caused such order to be published by posting a copy at my office and in the offices of the Magistrate and Collector of Hooghly, in the Court of the Judge of Hooghly, of the Joint-Magistrate of Serampore, and in all the Moonsiffees and thanas in the jurisdiction of which the lands are situated.

2. There were altogether five appeals of which two were out of time and three were decided on their merits. In all these cases it was found that the rates had been fairly assessed. In one case the appellant urged that he did not require the water of the canal for irrigation; but the subject of the canal being drainage not irrigation, my predecessor who decided the case did not think there was any real ground for the objections raised. In another case in which the appellant was out of time it was urged that he was not in possession of certain lands in respect of whose assessment he raised objections, but as the land is responsible for the arrears, and will be sold in satisfaction if those arrears are not paid by the owner, I considered his objection as futile, and refused to entertain his application, which I disposed of as out of time. The appellant, moreover, is one of the Drainage Commissioners, but never attended any meeting, or he might have personally represented and advocated his own case.

3. The apportionments have been made with much judgment and discrimination, and were on the whole fair and equitable. If anything, the assessments have erred on the side of leniency, and many lands in respect of which the benefit is doubtful, precarious, or inconsiderable, though falling within the contour line, have been exempted.

4. The maps and schedules are herewith forwarded for inspection.

5	Hooghly, „ 6 „	0·67	Weather—warm and sultry. Cloudy with strong wind and rain on the night of the 5th. Ploughing for early and late rice is going on. The rain of the 5th has been beneficial. There is cholera in a sporadic form in almost all the thanas of the district.
	Howrah, „ 8* „	0·04	Weather—very hot, with occasional storms at night. Rain is wanted for cultivation. Sugarcane is being planted. There is nothing on the ground now, except a little *boro dhan*.

7	Nuddea, „ 6 „	0·49	Weather—hot and dry. No crops on the ground worth mentioning, except sugarcane and indigo which are promising. The prospects of the mango crop are said to be fair. Cholera is rather more prevalent than usual in several part of the district, especially in Chooadanga.
8	Jessore, „ 6 „	1·44	Weather—hot, with occasional gales. There was a heavy gale on the night of the 5th, which blew down a number of trees on the Jhenida road. Sowings of rice and indigo have begun in the north, but in the east and south rain is very much needed, and the prospects of *boro dhan* are not good for want of it. The rainfall at Sudder station consisted mainly of one heavy shower on the 1st, which was only local. It was accompanied by a fall of very large hailstones. Where these fell the mango crop has been much injured. Coarse rice is selling at Rs. 3-12 per maund at Jessore and Rs. 4 at Narail.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 18. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table, "Prof. papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 18 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by *o*, and one completely overcast by 10.

The above, being all comparable, afford the data for constructing a meteorological chart for the month which will show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 92.

The 15th April 1878.

UNDER Section 89 of Act X. (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Hazareebagh, Lohardugga, Singbhoom, and Manbhoom, of works done and in progress during the past cess year 1876-77, together with the remarks thereon of the Commissioner of the Chota Nagpore Division, are published for general information.

J. E. T. NICOLLS, *Major-General*, R.E.,
Secretary to the Govt. of Bengal in the Public Works Department.

No. 52, dated Hazareebagh, the 10th December 1877.

From—COLONEL H. M. BODDAM, Deputy Commr. and Chairman, Road Cess Committee, Hazareebagh,

To—The Commissioner of Chota Nagpore.

I HAVE the honor to submit the following report on the operations of the District Road Fund during the cess year ending 30th September 1877.

2. As the majority of the non-official members who formed the Committee before seldom attended any meetings and took very little interest in the discharge of the duties imposed by the Act, it was found necessary to revise the list of members, and accordingly in November 1876 a fresh list was prepared and submitted to Government. In revising the list the number of members was reduced from 37 to 24, as it was found to be impossible to form a quorum with so many members.

3. There were seven meetings of the Committee during the year, all of which were attended by a quorum and presided over by the Chairman.

4. More than ten days' notice was given of every meeting held during the year, and the business to be transacted was duly notified.

5. The following table shows the names of members, the number of meetings which each member attended, and from which he was absent during the year under review:—

6. Further particulars regarding the meetings of the Committee are abstracted in the statement given in the margin.

7. It will be observed that the attendance of members during the year was not so unsatisfactory as was the case before. The average attendance was about 12 against 9 in the preceding two years; and I am glad to say that there was no meeting during the year which was not attended by a quorum, and that, with the exception of Bhikari Bhuggut, all the non-official members took average interest in the discharge of the duties imposed by the Act.

8. Besides the revision of the list of members, the following changes occurred in the Committee during the year under review:

Mr. Wilson having resigned, Mr. W. N. Campbell, Road Cess Deputy Collector, was elected Vice-Chairman in February last, but he held the office only for a short time, as in May last he was transferred to Palamow, when Baboo Deno Nath Mookerjee was appointed Vice-Chairman, who now continues to hold the office.

9. The following are the principal subjects which engaged the attention of the Committee during the year:—

1. Audit of the accounts for the last cess year, 1875-76.
2. Preparation of the budget-estimates for 1877-78.
3. Determination of rates of assessment for 1877-78.
4. Appointment of a Vice-Chairman in place of Mr. Wilson resigned.
5. Passing of estimates of the different works executed during the year.

10. No Branch Committee existed during the year, nor was it ever appointed in the district since the introduction of the Act.

11. As the rent charged by the Executive Engineer for the portion of the old circuit-house, which the Road Cess Office had been occupying, was considered very exorbitant, the Committee in February last purchased a small bungalow with extensive out-offices, situated in the vicinity of the court-houses, at a cost of Rs. 877-8. The out-offices were dismantled and the bungalow enlarged and improved with the old materials at a further cost of Rs. 460-14-4, so as to accommodate the Road Cess Deputy Collector's, Vice-Chairman's, and District Engineer's Offices. It has saved the Committee Rs. 24 per mensem on account of rent fixed for their office accommodation by the Executive Engineer. In April last the bungalow was completed and the offices removed thereto.

12. The registers and accounts prescribed by Government and the Examiner, Public Works Accounts, have been properly kept. They were inspected in December 1876 by Mr. Wilson, Assistant Examiner, and in October last personally by Mr. Boyce, Examiner of Public Works Accounts, who found them all in good order and kept in a satisfactory manner.

13. The accounts of the year were examined and audited by a Sub-Committee consisting of the following members:—

Mr. H. Dewes, Executive Engineer, Hazareebagh Division; Rai Jadu Nath Mookerjee, Government Pleader; and Bukshi Ram Dass. Rai Deno Nath Mookerjee, being Vice-Chairman, was necessarily a member of the Sub-Committee.

	Rs.	A.	P.
Cess on land	29,084	1	8
" mines	532	0	0
" houses	2,120	0	0
Fines and penalties ...	115	12	8
Total ...	32,449	14	5

14. The amount collected under Act X. of 1871 (B.C.) was Rs. 32,449-14-5 as detailed in the margin.

15. Besides the above, Rs. 812-3-6 were received from the Collector of the district as contribution from the Government Estate Improvement Fund.

16. The amount, Rs. 76-6, shown in the accounts as miscellaneous receipts, was realized by the sale of surplus materials of the buildings purchased for office.

17. The Government sanctioned no grant to this district during the year under review.

18. The total amount available for expenditure, including the balance at close of last year, was Rs. 47,356-12-11, of which Rs. 29,463-13-4 were disbursed, the balance remaining in hands at close of the year being Rs. 17,892-15-7. The original works having been stopped, pending sanction of Government to the estimates, the outlay on works during the year was mostly confined to repairs to old roads, hence the large balance in hand.

19. The charges for collection of revenue amounted to Rs. 1,019-2, *viz.*, Rs. 898 for pay of establishment and Rs. 121-12 on account of contingent expenses of the office.

20. The Committee's office charges during the year was Rs. 681-4, namely, Rs. 330 for establishment and Rs. 351-4 for contingencies.

21. The total establishment charges for both collection of revenue and Committee's office amounted to Rs. 1,228, and contingent expenses to Rs. 472-6. As there was no provision

made in the budget for office rents, the Rs. 193-8-9 paid to the Public Works Department on that account was charged to "Contingencies," hence the expenditure under this head exceeded the allotment sanctioned in the budget.

22. The total expenditure on works during the year was Rs. 21,095-8-3, *viz.*, Rs. 9,765-8-7 on original works and Rs. 11,329-15-8 on repairs.

23. The estimates not being completed by the District Engineer and sanctioned by Government, none of the original works, except the road from Hazareebagh to Chattra, could be taken in hand. As no separate establishment was sanctioned for surveying and levelling, the District Engineer had to do the work himself after inspecting the repair and other works; consequently there has been a delay in the preparation of the estimates.

24. The charges for establishment for work and District Engineer's office amounted to Rs. 5,871-2-6.

25. The expenditure under the head "Tools and Plant" was Rs. 796-12-7, which has been fully detailed in Part II. of the annual account.

ORIGINAL WORKS.

26. *Giridi and Khurukdiha Road.*—The road has been levelled and surveyed during the year, and the estimates are now being prepared. With the exception of metalling a portion of the road between the Giridi Railway Station and Pachamba, there was no work done during the year. The amount charged against this road is Rs 475-8-11. Of this sum Rs. 374-15-5 was paid on account of the metalling stated above, and the balance, Rs. 100-9-6, for surveying and other miscellaneous expenses.

Paharpore and Bogodhur Road.—Only one culvert was built on this road during the year. The work on the road has been stopped pending sanction of Government. The sum of Rs. 220-12-1, charged against this road in the accounts, was on account of the above culvert and the surveying and other petty expenses.

Hazareebagh and Chattra Road.—The remaining earthwork and cuttings on the first portion of the road, *viz.*, between Hazareebagh and Lepo, were completed during the season, and the second portion, between Lepo and Chattra, a distance of 18 miles, was levelled, and the necessary sections and estimates for earthwork, amounting to Rs. 7,696, were prepared and submitted to the Commissioner, who in July last accorded his sanction after the estimates were professionally examined and approved of by the Superintending Engineer of the Circle. Immediately on receipt of Commissioner's sanction, the earthwork along this second portion was commenced, and the Engineer reports that up to the close of the year about nine lakhs of earthwork was done. The amount paid on account of this road during the year was Rs. 6,042-3-1.

Chattra and Daltongunge.—Nothing was done on this road. The sum of Rs. 1,500 sanctioned in the budget for the work was transferred to the Hazareebagh and Chattra road by a proceeding of the Committee, dated 16th April 1877.

Burhee and Gawan Road.—The sides of gaps left for culverts between Goomoh and Musnoodi were sloped off and six timber tops put on to incomplete culverts by order of the Commissioner to allow carts to pass over the road. The work on the road has been stopped, pending sanction of estimates by Government. The amount paid on account of the above work was Rs. 288-11-3.

Churwa Bridge.—The sum of Rs. 150 charged against this bridge was paid to the contractor for compensation for damages sustained by him in the construction of the bridge during the previous year in consequence of the centring being carried off by a sudden and unexpected rise of the river.

Pachamba and Buddiha.—The sum of Rs 467-3 charged against this road was paid for works done during the last year when the road was completed.

Hazareebagh and Khepriwan Village Road.—The sum of Rs. 172-15-3 shown against this road was paid for works done last year.

Buildings.—Mirzagunge Bungalow. This was constructed last year, but paid for during the current year.

Two halting sheds or third class bungalows, one at Bhurkutta on the Buggodur and Paharpore road, and one at Jubra on the Baloomut and Sherghotty road, were commenced during the year, as these were much needed. The amount sanctioned for each being Rs. 200. Up to end of September last, Rs. 259-13-3 were expended on account of these sheds.

Rupees 149-15-5 were expended during the year in constructing out-offices and godowns for the three bungalows at Lepo, Ramghur and Pachamba. These out-offices and bungalows are intended for the purpose of keeping tools in.

27. *Repairs, Chattra and Chouparon Road.*—This metalled road, 30 miles in length, has been kept up in a proper state of repairs. The ghâts of the unbridged rivers have also been repaired and made easy. The cart traffic along this road is very great. The amount paid on account of this road during the year was Rs. 2,048-4-4.

Baloomut and Sherghotty.—Sixteen miles of this road between Chattra and Baloomut have been thoroughly repaired with earth taken from side drains; the road passing through Bhooraghat hills has also been repaired and improved in several places. In places where it was being washed away during the rains, the road has been protected by means of rubble stone retaining walls. The estimate sanctioned by the Commissioner for the work amounted to Rs. 3,497, of which Rs. 2,821-6-9 were expended during the year.

Station Roads.—The metalled surface and culverts along 16 miles of these roads have been repaired and the trees maintained at a cost of Rs. 837-13-2. The estimate sanctioned for the work amounted to Rs. 848.

Pachamba and Buddiha Road.—This road, three miles in length, has been repaired at a cost of Rs. 187-12-3; the road requires constant looking after, as the cart traffic from the adjacent collieries is very great.

Ramghur to Gola and Gola to Dimra.—The road between Ramghur and Gola has been repaired where absolutely necessary, and seven miles between Gola and Dimra have been thoroughly repaired with earth taken from side drains. The expenditure during the year amounted to Rs. 954-10, against Rs. 1,000 sanctioned for the work.

Gola and Govindpore.—Fifteen miles of this road between Muggunpore and Danto have been thoroughly repaired, including culverts, at a cost of Rs. 1,914-13 3. The estimate sanctioned by the Commissioner for the work amounted to Rs. 1,979.

Buildings.—Seven inspection bungalows and halting sheds were repaired during the year. The cost of repairing amounted to Rs. 619-9-2.

HEAD-QUARTER SUB-DIVISION.

Village Roads.—A sum of Rs. 500 has been expended in repairing the roads between Hazareebagh, Khapriwau and Narsingstan, and Rs. 495-10-9 on the roads between Koosoombha and Dainighat. The work on the former roads was executed under the supervision of Dharm Nath Missir, a member of the Committee, and that on the latter under the superintendence of the District Engineer.

PACHAMBA SUB-DIVISION.

A sum of Rs. 1,000 was paid to the Sub-Divisional Officer, Pachamba, for repairs to roads between Pachamba and Chetterdih, of which Rs. 950 were expended, leaving Rs. 50 unexpended in Mr. Bedford's hand at the end of the year.

28. A separate statement showing in detail the quantity of work actually done and paid for during the year under review is submitted.

29. All estimates for repairs, the cost of which exceeded Rs. 1,000, have received the sanction of the Commissioner of the Division, as laid down in paragraph 30 of the Government Resolution No. 1209 dated 8th March 1875, before the repairs were commenced.

30. The road cess in the district was collected during the year without any difficulty, though in certain cases the payments were not punctual. The total cess recoverable during the year, including the outstanding balance at close of September last, was Rs. 33,035, as per margin. Of this sum, Rs. 32,312, or about 98 per cent. of the demand, were paid up, leaving a small balance of Rs. 722 unrecovered at close of the year. Besides, Rs. 187 were voluntarily paid in advance. The above fact proves itself that the system has worked well and satisfactorily during the year. The people are now convinced that the tax levied from them is expended to purposes really useful and beneficial to themselves. They will really appreciate the benefit of the cess when the various roads which have been started in the district are completed. In no parts of the district was there any difficulty experienced in the execution of the work, nor any opposition offered in marking out lines of roads. The work during the year was executed both by regular and piece-work contracts, and only in a very few occasions by departmental labour.

31. The different establishments entertained to carry on the work under the Road Cess Act are—

1*st*,—Establishment for collection of revenue.
2*nd*,—Committee's office establishment.
3*rd*,—Engineer's establishment.

32. The establishment for collection of revenue consists of one head clerk, one mohurir, and a peon, and that of the Committee's office one clerk only. There is no accountant appointed in the Committee's office, the duty is performed by the Collector's road cess head clerk in addition to his legitimate works, with the assistance of the Committee's clerk.

33. The Engineer's establishment consists of one District Engineer, one overseer, and two sub-overseers, besides one clerk, one draftsman, and a peon for District Engineer's office.

34. The District Engineer, Mr. Gantzer, was an overseer in the Department of Public Works. He was appointed in September 1875 with the sanction of Government on probation for one year, but he has now been confirmed in the post, *vide* Government No. 1069E, dated 21st June 1877. He gets salary at Rs. 300 per mensem, besides travelling allowance at the rate of 4 annas per mile.

Mr. Gantzer has performed his duties entirely to the satisfaction of the Committee. He is methodical and hardworking, and deserving of the confidence placed in him.

35. Baboo Monmath Nath Chatterjee, Overseer, had charge of the works in the Pachamba Sub-Division, and was solely employed in the survey and levelling work. His appointment was probationary for one year, on the expiry of which he was confirmed in the post in November last: (*vide* Bengal Government No. 1784E., dated 3rd November 1877). The overseer was never employed any where before he joined the Road Cess Department, hence his practical knowledge is limited to the period he has served under the Road Cess Committee. The District Engineer reports that he has acquired a thorough knowledge of surveying and levelling during the period he has been in this district.

36. The overseer has since resigned and endeavours are being made to appoint a suitable man in his place.

37. The remaining being minor and office establishment, the sanction of Government to their appointments was not necessary. Both the Sub-Overseers, Baboo Troylukko Nath Chakravarti and Shebo Kally Mookerjee, now receive Rs. 25 per mensem. During the year under report the latter was in receipt of Rs. 20, but since October last he has obtained an increase of Rs 5. The sub-overseers have both practical knowledge of road making. The District Engineer reports that Baboo Troylukko Nath Chakravarti has now learnt to use the levelling instrument and can survey with prismatic compass.

38. Baboo Radhika Prosad Mullick, Head Clerk of the Road Cess Office and the Committee's office, is well up to his duties He is industrious and intelligent, and has rendered good service by keeping the accounts of collection and expenditure in efficient order according to the rules laid down by the Controller of Public Works Accounts.

REMARKS.—The attendance of the non-official members cannot be said to have been satisfactory; but as the cess is now being collected, we entertain hopes of seeing the members take an interest in the road works affairs.

RANCHEE, R. B. BOSE,

The 11th December 1877. *for Chairman, District Road Cess Committee.*

LOCAL PUBLIC WORKS.—DISTRICT LOHARDUGGA.

Annual Report for season 1876-77 *ending 30th September* 1877, *No* 16.

DURING the season the grant for district works was Rs. 9,906-15-6. Of this sum, Rs. 2,750-15-6 was allotted for the pucca masonry bridges, Rs. 3,800 for the repairs of ten roads, and Rs. 3,356 for establishment.

2. *Original works.*—The two bridges were completed for Rs. 2,582-7, and the savings, Rs. 168-8-6, were expended on earthwork in the approaches of the Moorgoo bridge, for which no provision had been made in the estimates.

3. Of the Rs. 3,800 for repairs, Rs. 3,435-9 has been expended by me, and Rs. 364-7 by the members of the Committee and others.

4. *Repairs.*—By the end of June last Rs. 2,926-12 had been expended, and in the brief preliminary report (No. 147 dated 21st July 1877), I reported on the works that had been completed. The balance, Rs. 508-13, has been laid out on petty repairs on seven works. Twenty-seven bridges have been repaired and 20 miles of road. The approaches of Moorgoo bridge has been partly completed. The total quantity of earthwork done since the end of June last is 173,070 cubic feet.

5. The above account of work does not include the work done by the members of the Committee and others for the Rs. 364-7.

6. *Establishment.*—The sanction for establishment was Rs. 3,356. Of this Rs. 3,211 has been expended, the balance, Rs. 145, is in hand. The saving is from the amount, Rs. 500, sanctioned for travelling allowance.

7. *Statement of Expenditure.*—A detail statement of the expenditure for the year is annexed.

8. *Work for ensuing season.*—For the ensuing season estimates have been submitted for completion of the earthwork on two main lines of communication, the Ranchee and Lohurdugga and Lohurdugga and Chattra roads, and it is proposed to replace the timber bridges year by year as they become unserviceable by pucca masonry ones.

9. The repairs of ten roads, named in the margin, are proposed to be undertaken, for which estimates have been drawn up at mileage rates under Government Notification No. 173 dated 7th May 1872, paragraph 13.

1. Kuru and Lateyhar road.
2. Ranchee and Bundgaon ,,
3. Khunti and Kamdeyra ,,
4. Ranchee and Palkot ,,
5. Ranchee and Gola ,,
6. Ranchee and Terai ,,
7. Ranchee and Palma ,,
8. Balee nutt and Janju ,,
9. Ranchee and Pittoria ,,
10. Petty Works.

10. *Pucca Masonry culverts.*—It is proposed to build 34 pucca masonry culverts and inverts, or open drains, to replace the unserviceable timber bridges. Twenty-two are to be built on the Ranchee and Lohurdugga road and twelve on the Lohardugga and Chattra road.

11. *Span and Waterway.*—The culverts are to be all of one span with four to six feet waterway.

12. *Description of Roads.*—All the roads in the district are fair-weather roads, and have hitherto been maintained as such.

13. *Obstacles to traffic.*—Although there is no want of cattle, there are only a very few carts in the district, their usefulness being confined to the locality for want of through passage to large marts, towns, forests, &c., &c. At present there is not a single district road fit for heavy traffic by cart, deep unbridged streams, ravines, steep ascents, and even slush being the obstacles.

14. *Scarcity of funds for even petty repairs.*—For the last two years beyond the completion of the two pucca masonry bridges at Moorgoo and Bramba, nothing but petty repairs has

been done, and for even petty repairs sufficient means were not available, so that some of the important lines have been entirely neglected.

16. *Trade.*—There is a large trade carried on between this district, the Tributary States, and the large marts on the Grand Trunk Road and the railway stations in lac, tussur, oil-seeds, til, rosin, &c., &c. For want of good roads the cheaper kinds of jungle and field produce cannot be exported, the heavy transit charge making it prohibitory. All the traffic is at present carried by pack bullocks and coolies carrying "banghys."

16. *Concluding remarks.*—The whole attention of the Committee should therefore be devoted to completing the main lines in a manner that will admit of heavy traffic by carts passing over them. This will benefit trade, stimulate the cultivation of land, add to the convenience of the general public, and ensure the prosperity of the district.

RANCHEE, J. PICKARD,
The 19th October 1877. *District Engineer.*

FORWARDED in original. As the undersigned has not had an opportunity of personally going over the roads, he is unable to add to the remarks of the District Engineer.

C. GARBETT,
Chairman, District Road Cess Committee.

No. 61, dated Ranchee, the 28th December 1877.

From—CAPTAIN C. H. GARBETT, Chairman, District Road Cess Committee, Lohardugga,
To —The Commissioner of Chota Nagpore.

WITH reference to your letter No. 3121 dated the 24th December 1877, I have the honor to state that the roads, bridges, and culverts mentioned in the budget-estimate for 1877-78, and sanctioned by you in your letter No. 2216 dated 17th August 1877, are the works which it has been resolved to execute during that year.

The duplicate copies of the reports, accounts, &c., will follow shortly.

No. 836, dated Chyebassa, the 1st November 1877.

FROM—SURGEON-MAJOR W. H. HAYES, Deputy Commissioner of Singbhoom,
To—The Commissioner of Chota Nagpore.

I HAVE the honor to report on works of local improvement in this district for the cess year ended the 30th September 1877.

Repairs.—During the year under review the surface repairs of all the roads and their culverts, noted below, were completed.

1.	Midnapore Road	71	miles
2.	Boiragora „	21	„
3.	Burrakur „	29	„
4.	Khursawan „	16	„
5.	Bandgaon „	44	„
6.	Gurjun „	71	„
7.	Jyntgurh „	35	„
8.	Bamunghatty „	20	„
9.	Seraikyla to Chuckerdhurpore Road ...	25	„

2. An attempt was also made to kunker some portions of the Midnapore Road running through soft tenacious clay, so as to render traffic easier during the rains; but as the amount budgetted for this road would not permit the kunker to be laid down according to the practise observed in the Public Works Department, it was spread out three inches thick and six feet wide, and left to settle by the traffic. One and two-thirds of a mile of road was thus kunkered at a cost of Rs. 118-10-3 including supervision.

3. The Kapurgadi Ghat Road, which was a source of constant trouble and expenditure, has been abandoned as impracticable except at an enormous cost, and a new road perfectly level has been constructed over the hill running to the right of the old crossing.

4. The Ghatsilla Ghat has also been cut down, so as to make the gradient easier for wheel traffic; with these exceptions nothing remarkable has been done on any of the other roads in the district. On the Khursawan Road it was found necessary to re-build entirely three culverts, but the cost of the work was kept within the estimated amount for repairs.

5. The Roro bridge just outside of the station on the Bandgaon Road was also repaired, and both ends arched during the year under review.

6. *Original Works.*—With regard to original works 20 arched masonry culverts have been constructed to re-place temporary wooden platform culverts—15 on the Midnapore Road and five on the Bandgaon Road.

7. The permanent establishment consists of one overseer, one clerk, and one chuprassee. They performed their duties to my satisfaction.

8. An abstract of particulars regarding meetings of the District Committee during the year 1876-77 is herewith appended. Most of the non-official members evince little or no interest in the work required of them

9. Beginning with the cess year 1877-78, in addition to all the roads noted in paragraph 2, those named in the margin will be repaired with their culverts and bridges. The further improvement of the Milepee and Ghatsilla Ghats have also been provided for, the former on the Bandgaon Road, and the latter on the Midnapore Road.

1.	Chyebasa and Goodri Road ...	40	miles.
2.	Kalkapore Police Station ,, ...	4½	,,
3.	Chakulia to Boiragora ,, ...	20	,,
4.	Rabo Ghat Road ...	16	,,
	Village roads in Government Kolhan	127½	,,

10. Besides the above repairs and improvements, it has been resolved to construct 12* arched masonry culverts to re-place temporary wooden platform culverts now on the road, to cover and otherwise complete the Jantha and Asonjora Khal bridges on the Boiragora Road, and construct four wing walls, &c., to the Bhataijor bridge near Ghatsilla on the Midnapore Road.

* Midnapore Road		5
Burrakur ,, ...		4
Bandgaon ,, ...		3
	Total ...	12

11. The ghats of rivers and minor streams will be sloped and made easy for traffic, and otherwise improved.

12. The road cess not having been introduced into this district, the Committee receive a grant-in-aid from Government, which has of late years been limited to Rs. 10,000. It is inadequate to meet the cost for first class roads and communications in the district, but considering the extent of traffic the rough roads now in existence suffice.

SINGBHOOM DEPUTY COMMISSIONER'S OFFICE, *The 1st November 1877.*

GANESH CHUNDER NIPATHI, *Vice-Chairman.*

W. H. HAYES, *Deputy Commr. and Chairman*

No. 143, dated Purulia, the 2nd November 1877.

From—LIEUT.-COLONEL B. W. MORTON, Deputy Commissioner of Manbhoom,

To—The Officiating Commissioner of Chota Nagpore.

I HAVE the honor to submit the account of the Manbhoom District Road Fund and my report upon the working of the Road Cess Act for the (road cess) year ending the 30th September 1877.

2. The Act was in full operation during the year. The estimate of, and actual collections during, the year were :—

	Current arrears.	Estimated.	Collected.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
Land cess	6,272 0 0	29,585 0 9	27,727 0 0
House „	3,475 0 0	6,000 0 0	4,059 0 0
Mines	.....	3 2 0	3 2 0
Fines	... ..	.....	2 1 6
Miscellaneous ...	.....	1,416 0 0	2,292 15 8

3. The last kist of the land cess falls due on the 28th September, and as nothing can be done until that date beyond a courteous expression of hope all round that the kist will be paid in with punctuality, it is almost impossible to expect a clean sheet in the way of collections by the close of the road cess year.

4. The house tax continued to present the difficulties in collection to which I referred last year. There can be no doubt that it was wrongly assessed. It seems to have been considered a tax on property generally, and not to have been assessed with reference to, and actual value of, houses, the owners of which were held liable to it. Matters were bad enough when such owners had to pay only a single cess. I took upon myself the responsibility of remitting the tax whenever it seemed to have been unfairly made. But the whole assessment appeared to me wrong; and consequently when the provincial cess was also ordered to be levied, I addressed the Commissioner on the subject; under orders of the Board of Revenue enquiries are being made into the validity of each assessment, a Deputy Collector having been deputed by me for the purpose.

5. In the collection of house tax I gave up the plan of collecting through the excise establishment, and tried to collect by means of tax collectors appointed under orders of the Board of Revenue. My impression is that no system of collection will be found to answer until the assessments have been regulated according to law.

6. I have the honor to submit in the form which accompanied your office letter No. 3095 dated 18th November last, a statement showing the number of members on the District Road Committee, and the number of members present at each meeting. I believe

the members are really interested in the work which is placed under their supervision. The work of the Committee may be summarized as follows:—

(*a.*) Annual accounts for 1875-76 scrutinized and passed.
(*b*) Determination of rates for the year.
(*c.*) Scrutiny of reports on works in progress.
(*d.*) Scrutiny of and discussion on estimates for new works, including the estimates for the ensuing year.
(*e.*) Auditing of quarterly and annual accounts by a Sub-Committee.

7. The Committee authorized in all an actual expenditure of a sum of Rs. 26,697-1-11. There was a sum of Rs 24,495-1-11 to credit of the Committee at the close of the year.

Their liabilities for work actually done but not paid for during the year amounted to Rs. 5,883-9-2.

8. Under the head of *Original Works*, work was done on the following roads. The roads are given in the order of the amounts expended on each.

No. 9.—*Purulia and Bankoora Road.*

9. The work done, or in progress on this road during the year, consisted of—

One bridge	...	...	...	30′ span completed.
One „	...	...	...	12′ „ „
One „	...	...	...	10′ „ „
One „	...	...	...	60′ „ in two openings in progress.

Three small culverts, earthwork, turfing, and 4 miles of metal. When the Samookgooria bridge of two openings each of 30′ span, now in progress, is completed, this road will be entirely open to cart traffic as far as the Bankoora boundary. Only one stream, the Patloi, will remain unbridged. The bridge when undertaken will cost a deal of money; and I do not think the Committee will consider it necessary to estimate the work for some years to come. Meanwhile the approaches have been sloped, and will be improved this year.

No. 1.—*Purulia and Chyebassa Road.*—Five miles of metal. One large stream paved with rubble stones, banks cut to a gradual slope.

No. 5.—*Roghunathpore and Raneegunge Road.*—Two miles of metal.

No. 3.—*Jhapra and Gobindpore Road.*—Earthwork and turfing along 5 miles, 15 new culverts.

No. 2.—*Purulia and Manbazar Road.*—Three long breaks have been filled up. The road is now continuous; banks of streams sloped, and two parts of the road, where the gradient was steep, have been cut down to a more convenient slope.

10. Under the head of *Repairs* the following roads and bungalows have been repaired:—

No. 1. Purulia and Chyebassa road.
No. 9. Purulia and Bankoora „
No. 2. Purulia and Manbazar „
No. 5. Roghunathpore and Raneegunge road.
Purulia and Chyebassa Skew bridge wing wall washed away, re-placed.
No. 4. Roghunathpore and Bankoora road.
Barrabazar Bungalow.
Inspection huts on the Purulia and Chyebassa, Roghunathpore and Raneegunge, Purulia and Bankoora roads.

11. More original work would have been done, and so large a balance would not have been in hand, had the estimates of the Committee been passed. Unfortunately, the estimates of the greatest work the Committee have in hand—the Purulia and Chyebassa road—were lost. The Committee ordered estimates of such parts of the work as it was proposed to undertake during the year to be prepared. This was done, but such estimates being, as it appeared, against the orders of Government were rejected by the Public Works Department; and estimates of complete projects were called for. The Committee then arranged the several roads in the district in order of their importance, and directed complete projects to be submitted for each one in that order.

Complete projects were accordingly drawn up during the year for the Purulia and Chyebassa road No 1, and Purulia and Manbazar road No. 2

These were sent on during the year. I have heard of their having passed the Superintending Engineer's office, and I hope soon to get them back from Government, as our working season, when cheap labour is available, has commenced.

12. During the year 1877-78, the Committee propose to expend money on the following roads, viz.:—

				Rs.
No. 1.	Purulia and Chyebassa road	...	...	20,000
No. 2.	Purulia and Manbazar „	...	...	10,000
No. 4.	Roghunathpore and Bankoora „	...	...	1,000
No. 9.	Purulia and Bankoora „	...	...	4,250

(Samookgooria bridge already referred to).

The Committee proposes to repair seven principal roads, and to expend Rs. 3,000 on village communications during the year, besides undertaking annual repairs to inspection bungalows. The repairs of village roads will be an interesting experiment. It is not

intended to do more than level and mark out the existing rough roads of the country, employing for the purpose the villagers most concerned in the matter.

13. The Overseer, District Engineer Baboo Ramnath Bhattacharjee, received from the Public Works Department, has proved a very capable and intelligent officer. He has given the fullest satisfaction to the Committee and myself. He reports well of his subordinates.

The accounts of the District Road Committee have been ably and neatly kept by Mr. Thompson, the Committee's accountant. The clerks of the Road Cess office have conducted their duties well.

PURULIA,
The 2nd November 1877.

R. H. RENNY,
Asst. Commr., for Dy. Commr. of Manbhoom.

Extract from a letter from the Deputy Commissioner of Manbhoom, to the Commissioner of Chota Nagpore, No. 164, *dated* 28*th December* 1877.—*Paragraphs* 2 *and* 3.

2. With reference to the 2nd paragraph of your letter under reply, I have the honor to report as follows; we have no branch committee in reality, and I do not advocate the formation of one. I do not think it would work, at least without an English officer, who would be in fact the branch committee in his own person. Even with such an officer I think it would be better to make him a sort of corresponding member of the sudder committee, and to supply him with what funds he required.

This year (1877-78) we have budgetted for Rs. 575 for Govindpore. I hope to visit Govindpore shortly, and I shall arrange for the money being spent to the best advantage. Some of the money budgetted for village roads will also be spent in the sub-division this year.

3. There has been no change in the establishment of either Road Cess or District Road office during the year, although the Committee allowed a slight biennial increase, from the 1st of the current year, to the road cess mohurir, to the accountant of the District Road office, and to the store-keeper office assistant of the District Engineer's office, and placed the travelling allowance of the District Engineer on a more equitable footing.

Our road cess establishment as it now stands consists of—

	Per mensem Rs.	A.	P.
One clerk	60	0	0
One mohurir	22	0	0
One peon, ...	5	0	0
One punkah cooly (for eight months) ...	3	0	0

As the establishment has to perform duties connected with provincial cess, I trust the propriety of meeting a part of the expenses from Provincial Funds will in due course be recognized. The District Road office consists of—

		Per mensem. Rs	A.	P.
1	District Engineer	180	0	0
1	Office Assistant Store-keeper ...	23	0	0
1	Sub-Overseer	65	0	0
1	Ditto	55	0	0
1	Draftsman	20	0	0
3	Peons on Rs. 5 each	15	0	0
1	Store godown chowkidar	4	0	0
1	Accountant	80	0	0
1	Punkah cooly (for eight months) ...	3	0	0

There is no establishment for collecting any part of the cess excepting house cess. At this moment I have no establishment for the latter purpose, for the simple reason that I do

not know from whom to collect, the assessments having been all wrong in the first intance, and being now in course of revision. As soon as I get *final* reports from the Deputy Collectors engaged in revising the assessments (they report to me weekly their progress), I shall submit a proposition. I think that it is likely that I shall recommend the collection of both road and provincial cess by an establishment from the members of which security would be taken, and who would be paid by commission. This plan found favour with the Board last year.

No. 576, dated Purulia, the 10th December 1877.

From—LIEUTENANT-COLONEL B. W. MORTON, Deputy Commissioner of Manbhoom,
To—The Commissioner of the Chota Nagpore Division.

REFERRING to your letter No. 2988 dated the 5th instant, I have the honor to state that I exerted myself to get in the road cess of the last year punctually in the same manner as I did to get in the land revenue of the district by the close of the financial year.

The reason why I was successful in the latter, and why I failed in the former case, is, I think, to be found in the fact that the zemindars of this district are for the most part a hand to mouth race. Far from having cash to spare, they are most of them deeply involved. To meet the demands of the Government they are dependent on their ryots, the ryots again are dependent on their crops. We had a good harvest last year, and the zemindars, who, I do not think, willingly withhold their dues, paid up their land revenue to the last pice before the 31st March. The road cess year ends before the great crop is collected and its end is so near to the harvest that I suspect the zemindars look to the coming harvest to meet the past cess. Again, the zemindar of Pachete is greatly dependent on his putni talook sales to meet the dues of Government. These come off in November. So far as this district is concerned, I should be glad if the road cess year were made to correspond with the financial year.

PURULIA,
The 2nd November 1877.

F. WILCOX,
Vice-Chairman.

No. 3, dated Chota Nagpore, the 2nd January 1878.

From—The Commissioner of the Chota Nagpore Division,

To—The Secretary to the Government of Bengal; in the Public Works Department.

WITH reference to the Government orders noted on the margin, I have the honor to submit herewith, in original, the local improvement reports* and returns received from the District Road Committees in this division for the cess year ending on the 30th September last.

No. 49 dated 24th September 1878.
No. 69 dated 23rd July 1878.
Circular No. 9 dated 4th April 1876.

* From Hazareebagh { No. 52 dated 10th December 1877. / No. 56 dated 20th December 1877.
„ Lohardugga { No. 51 dated 11th December 1877. / No. 61 dated 28th December 1877.
„ Singbhoom ... { No. 856 dated 1st November 1877.
„ Manbhoom ... { No. 143 dated 2nd November 1877. / Extract from No. 164 dated 28th December 1877, paragraphs 2 and 3.

2. During the past year the road cess in the Hazareebagh district was collected at the maximum rates prescribed by the Act, and this gave an increase of Rs. 7,405 under the head of cess on lands and of Rs. 528 under the house cess. An increase of Rs. 65 was also obtained in the land cess owing to the transfer of 16 villages from the Gya district during the year; but in the case of mines the year's assessment resulted in a decrease of Rs. 569 owing partly to the closing of the Goomgi Mica mine, which formerly yielded Rs. 192, and partly to the Koledihá Colliery of the Bengal Coal Company having been assessed during the past year at Rs. 330 against Rs. 707 during 1875-76. The valuation of this colliery, as made by the Deputy Commissioner, amounted to Rs. 30,179, but this was reduced by me on appeal to Rs. 10,554, and hence resulted the decrease in the assessment of this mine.

3. The collections of the year were highly satisfactory. The percentage of collections of the land cess was about Rs. 98, that of the cess on mines was Rs. 100, whilst that of the house cess was above Rs. 97, and this happy result was obtained without recourse to sale in a single instance. In a few cases only some moveable property of the defaulters was attached, but the parties paid up the money either immediately after attachment or on the publication of the proclamation for sale. In regard to the working of the system, I would solicit attention to paragraph 30 of Colonel Boddam's report No. 52 of the 10th ultimo.

4. In Manbhoom also the cesses were levied at the full rates during the year of report, but the collections fell very much short of the prescribed percentage. Only 78 per cent. of the land cess was collected, and in the case of house cess the percentage did not exceed 40. In explanation of the low percentage of the land cess, the Deputy Commissioner urged that, as the last kist of the cess fell due on the 28th September, it was "almost impossible to expect a clean sheet in the way of collections by the close of the road cess year." This, however, did not appear to me to be sufficient, more especially as Colonel Morton was quite successful in realizing the whole of the land revenue demand of the past year, and I therefore called for further explanation. The revised explanation will be found in the annexed copy of his letter No. 576 of the 10th ultimo, and would appear to be satisfactory.

5. In regard to the house cess collections, the Deputy Commissioner's explanation is quite correct, the cess was very injudiciously assessed at the outset, and on my representation the Board of Revenue have authorized a revision of it. This is now being done by a Deputy Collector, and it is hoped that matters will be brought to a satisfactory issue.

6. In the Lohardugga district the valuations under the Road Cess Act were completed in June last, and the rates fixed towards the close of the year. The collections have been commenced to be made from the beginning of the current cess year.

7. The Act has not been introduced into any part of the Singbhoom district.

8. The District Road Committees in this division have done as good work as they could under their respective circumstances; but, as has been previously reported by my predecessors, members, who are natives of the country, seldom attend the meetings of the committees or take any interest in their proceedings. For this reason the Deputy Commissioner of Hazareebagh found it necessary to revise the list of members of his Committee and to reduce the number from 37 to 24. The information regarding the meetings of the District Committees will be found in the tabular statements appended to the district reports, and I have nothing to add.

9. During the year of report no grants-in-aid from the Provincial Reserve Fund were allotted to the Hazareebagh and Manbhoom districts, and a grant of only Rs. 10,000 was made to each of the Lohardugga and Singbhoom districts.

10. During the past year the total amount at the disposal of the Hazareebagh Road Committee, including the unexpended balance of the preceding year was Rs. 47,357, and the aggregate outlay was Rs. 29,464. Of this latter sum, Rs. 9,765 was spent on original works and Rs. 11,330 on repairs, and the Committee had at the close of the year Rs. 17,893 in hand. As a reason for keeping so large a balance unexpended, the Deputy Commissioner urges that, owing to the estimates for original works not being completed by the District Engineer, the sanction of Government thereto could not be obtained in time.

11. The details of the works executed during the year will be found in the Committee's report, but here I would beg to point out that, through inadvertence, an error of procedure was committed in my office. On receipt of the sections and estimates for earthwork on the second portion of the Hazareebagh and Chattra road, between Lepo and Chattra, a distance of 18 miles, I forwarded the papers to the Superintending Engineer of the Circle

for professional scrutiny; but when the papers were received back from that officer, instead of submitting them to your office for final approval and sanction of the Government, I accorded my sanction to the works. This error was discovered subsequently, and the estimate and plan, &c., were submitted to your office with my memorandum No. 2868 of the 16th November last, but the Deputy Commissioner, acting under my sanction, carried out the earthworks and spent the greater portion of the money allotted to this work.

12. In the Lohardugga district the total income of the year amounted to Rs. 12,893; but of this sum Rs. 8,805 were swallowed up by the establishment and other charges, leaving Rs. 4,088 available for works. This was, however, supplemented by a loan of Rs. 6,000, obtained under your office orders No. 3205A of 29th September 1876, and thus the District Committee had Rs. 10,088 at their disposal for works. Out of this sum, Rs. 2,751 were laid out on original works and Rs. 5,880 on repairs, as detailed in the Committee's report.

13. Besides the Government grant-in-aid of Rs. 10,000, the Singbhoom Road Committee received an allotment of Rs. 2,018 from the Estates' Improvement Fund, and this, together with the unexpended balance of the previous year and some refunds, raised the total income of the year to Rs. 12,429. The total expenditure amounted to Rs. 10,953, of which Rs. 4,846 were laid out on original works and Rs. 4,373 on repairs, the details of which are given in the Committee's report.

14. The total income of the Manbhoom Committee during the past year amounted to Rs. 51,192, and the aggregate expenditure to Rs. 26,697, leaving a balance of Rs. 24,495 in hand on 30th September last. The reason why so large a balance remained unexpended is given in paragraph 11 of the Committee's report. Out of the total amount spent during the year, Rs. 14,170 were laid out on original works, and Rs. 4,533 on repairs, as will be seen from the detailed statements appended to the Committee's report.

[Third Publication.]

THE following Act, passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 25th February 1878, and having been assented to by the Governor-General on the 26th March 1878, is hereby published for general information :—

ACT No. III OF 1878.

An Act to define and limit the powers of Settlement Officers with respect to enhancement of rent.

WHEREAS it is expedient to define and limit the powers of settlement officers in the territories subject to the Lieutenant-Governor of Bengal in respect of the enhancement of rent: It is enacted as follows :—

Preamble.

1. This Act shall come into force from the date on which it may be published in the *Calcutta Gazette* with the assent of the Governor-General.

Commencement of Act.

2. No ryot having a right of occupancy shall be liable to have the rent previously payable by him enhanced in the course of any settlement proceedings under Regulation VII of 1822, except on some one or more of the grounds specified in section 18 of Bengal Act VIII of 1869, or, where Act X of 1859 is still in force, in section 17 of the latter Act.

Rent of ryot having right of occupancy not to be enhanced by settlement officer except as under Bengal Act VIII, 1869, or Act X, 1859.

3. The following words shall be added to section 15 of Bengal Act VIII of 1869, and to section 14 of Act X of 1859 :—

Provisoes added to section 15, Bengal Act VIII, 1869, and section 14, Act X, 1859.

"Provided that where in the course of any settlement proceedings conducted under Regulation VII of 1822, and confirmed by the revenue authorities from time to time empowered in this behalf by the local Government, a higher rent has been recorded as demandable from any under-tenant or ryot than was previously paid by him, such rent shall be deemed to have been correctly enhanced until the contrary is proved.

"Provided also that any suit by such under-tenant or ryot to contest his liability to pay the enhanced rent shall be instituted within three months from the date of the service of the notice of enhancement, and provided also that, unless he has instituted such suit within such period, he shall not contest the said liability in answer to any suit which may be preferred against him for recovery of arrears of enhanced rent after the expiration of three months from the date of service of such notice, anything in this Act to the contrary notwithstanding."

4. A notice in writing served on an under-tenant or ryot by, or by the authority of, a settlement officer, calling on him to attend and sign the *jummabundi*, shall be deemed a notice within the meaning of section 14 of Bengal Act VIII of 1869, and section 13 of Act X of 1859.

Notice to sign *jummabundi* shall be deemed notice of enhancement.

Provided that it shall not be necessary to make personal service of such notice on each under-tenant or ryot, but that service may be lawfully made through proclamation by beat of drum of a general notice addressed to all whom it may concern, and by affixing such general notice with a copy of the *jummabundi*, or of such part thereof as the Collector may think fit, at the mal cutcherry of the village to which the *jummabundi* relates, or at some other conspicuous place therein.

In case of enhancement, the rent and grounds of enhancement to be specified in notice.

5. Whenever in any settlement proceeding conducted and confirmed as aforesaid a higher rent than the rent previously paid has been recorded as demandable from any ryot having a right of occupancy, the amount of such higher rent and the grounds of the enhancement shall be specified in any notice served upon the said ryot under clause 1 of section 4, or in the *jummabandi* appended to any general notice served under clause 2 of section 4, as the case may be.

Application of Act.

6. The provisions of this Act shall apply to all settlement proceedings under Regulation VII of 1822 which, after the commencement of this Act, may be confirmed by the revenue authorities mentioned in section three, whether such proceedings shall have been commenced before or after the commencement of this Act.

A few cases of small-pox have been reported from Bansbaria and Hulagur
	Howrah, „ 15* „	1·67	Weather—cooler than last week. The rain has been of much benefit in preparing the land for the plough.
	Central Districts.

7	Nuddea, „ 13 „	1·95	The weather has been hot and dry, but from the 12th it has been the reverse. On the night of the 12th 1·69 inches of rain fell. There is nothing new to report regarding the crops. The rain will no doubt improve the prospects for next season. There is a good deal of cholera in the district.

The land is under preparation for the *aus* crop. Heavy rain is much needed before it can be sown. The price of food-grains is unusually high in all parts of the district. A few cases of cholera continue to be reported from Bagmara, Charghat and Poothea police stations.
12	Rungpore, „ 12 „	0·71	A severe hail-storm passed through the station on the evening of the 9th at 5 P. M. The hail-stones were of extraordinary size, many of them as large as an orange. This has been followed by a lowering of temperature, and the sky is still overcast with clouds. The state and prospects of the crops on the whole still continue to be favourable, though much injury has been done to mangoes and tobacco by the recent hail stones. Most fortunately not much of the latter crop was still on the ground. Other damage done by the hail is most inconsiderable. Rice is at present very dear. Cholera is prevalent in some parts of the district and in the jail.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

w dew, *o* overcast, *lr* lightning reflection, *g* gloomy, *t* thunder, *l* lightning, *p* passing temporary showers, *f* strong wind.

Secy. to the Govt. of Bengal.

POST OFFICE.

NOTIFICATIONS.

Calcutta, the 15th April 1878.

RULES FOR THE CUSTODY, DISTRIBUTION AND SALE OF POSTAGE STAMP LABELS AND EMBOSSED ENVELOPES.

Approved by the Government of India in Financial Department letter No. 1902, dated 19th March 1878.

(N. B.—These Rules apply both to Service Stamps and to Ordinary Stamps, with the exceptions noted in Rules V and VIII.)

Supplies from Central Depôts.

I.—Supplies of postage stamps for the Madras Presidency, including Mysore and the local depôts subordinate to Madras, shall be supplied by the Superintendent of Stamps at Madras on the indent of officers in charge of local depôts.

II.—Supplies of postage stamps for the Presidency of Bombay, including Sind, Berar, the Central Provinces, and local depôts subordinate to Bombay, shall be supplied by the Superintendent of Stamps at Bombay on the indent of officers in charge of local depôts.

III.—Stamps for the Bengal Presidency, including the North-Western Provinces, Oudh, the Punjab, Central India, Rajpootana, Assam, and British Burmah, and local depôts subordinate to Calcutta, shall be supplied by the Superintendent of Stamps at Calcutta on the indent of officers in charge of local depôts.

IV.—The above-mentioned supplies from central to local depôts shall be issued on credit.

Local Depôts.

V.—Every treasury throughout India, including those attached to political, customs and salt agencies, shall be a local depôt for the sale of postage stamps, provided that the value of the stamps sold at one time to any purchaser shall not be less than Rs. 5, and shall not include any fraction of a rupee. At any station at which there is a collector of land revenue, neither a salt agent nor collector of customs shall be entrusted with the custody and sale of postage stamps. All sales under this rule will be for cash on delivery; and when the purchaser is one of those who are required to retail stamps under Rule VIII (not being a person employed in a Government treasury), or is one specially authorized under Rule IX, a discount of one-half anna per rupee will be allowed. But to purchasers other than the above, no discount will be allowed; and officers in charge of local depôts must see that discount is not allowed except to the privileged officers above referred to. The sale of embossed envelopes shall be subject to the same conditions, except that they shall be sold in packets containing sixteen envelopes each, portions of a packet not being saleable. The price of each packet shall be the value of the stamps borne by the envelopes contained in it, the discount (if any) being calculated on that value.

The above rule is only partially applicable to "service stamps," which may be sold *only to Government officials without restriction as to a minimum amount on a written application, accompanied by payment of the value in cash*, and on which *no discount is allowed*. A receipt containing in detail the gross value of each description of service postage stamps sold will be granted by the treasury officer for the amount paid to him.

VI.—A supply equal to the probable consumption for five months of the district attached to each local depôt shall be kept in each; and as soon as the number in store has fallen below the number expended during the preceding six months, the collector, or other officer in charge of the depôt, shall indent* on the central depôt of his presidency for a number equal to the consumption of the last three months, for which accounts have been rendered to the central depôt of the presidency. If by any accident the stock of stamps of any value should run short before the receipt of a fresh supply from the central depôt, the officer in charge of the treasury will indent on neighbouring districts for a quantity sufficient to meet the demand, which may be supplied or not, according to the discretion, and on the responsibility of the officer indented on, with reference to the wants of his own district. It will be the duty of the Superintendent of Stamps of the Presidency to report to the Director General of the Post Office, for the orders of Government, every occasion on which it may appear, from the monthly statement or otherwise, that the store of stamps of any particular value in any district has fallen below the authorized amount.

* Form 1.

Branch Depôts.

VII.—Every branch treasury and every tehsil treasury shall be a branch depôt for the sale of postage stamps under the conditions described in Rule V. It will receive its stamps from the local depôt to which it is subordinate, keeping always in store a supply sufficient to meet the probable demands of one month, estimated according to the average of former sales. It will keep an account of sales in the same form (3) hereafter prescribed for the treasurer's account, and will indent for supplies in the same form (4) as hereafter prescribed for the treasurer's indent. It will render an account monthly to the local depôt in Form 6A immediately on the expiration of the month.

Retail sale of Stamps.

VIII.—A supply of stamps *for sale by retail* shall be kept available at every post office, receiving office, tehsildaree, thana, and every police station at

which letters are received for despatch, and with every licensed stamp-vendor; and it shall be the duty of the officer, to whom the person in charge of any of the above-named places is subordinate, to take steps to ensure that the supply kept on hand is at all times equal to at least one week's demand. Persons in charge of the above-mentioned places will receive discount on purchases under Rule V. Inspectors and Sub-Inspectors of Post Offices within their respective jurisdictions, and any other officers of the Post Office specially deputed for that purpose or authorized on that behalf by the Post Master General, are empowered to examine the stock of postage stamps kept by a licensed stamp-vendor.

This rule does not apply to "service stamps."

By the term "licensed vendor," as used above, is meant a stamp-vendor licensed under rules framed by the local Government in accordance with section 48 of the General Stamp Act (XVIII of 1869).

Authorization of certain retail vendors other than the above.

IX.—A district officer may authorize the grant of discount at half-anna per rupee on purchases under Rule V to any person who is a *bonâ fide* retail vendor of postage stamps, although he may not be one of those required to retail them under the above rule. Such authority shall be given in writing, and must be produced by the person authorized when claiming discount on purchases: the authority will hold good for only 12 months from the date on which it is given, and may be revoked at any time at the discretion of the district officer. No such authority may be given to any person employed in a Government treasury. The authority so given may at the discretion of the district officer be made subject to conditions to be expressed in the writing of authority in any or all of the following respects, *viz.*:—the maintenance of a sufficient supply of all or any specified denominations of postage stamps for retail: a particular shop, place or locality, or particular shops, places or localities, in which postage stamps are to be exposed for sale: the days and hours during which they are to be so exposed, and any restriction upon the sale in shops, places or localities other than those specified. A register showing the name, residence, and occupation of every person so authorized, and the date of the authority, shall be kept by the district officer. Inspectors and Sub-Inspectors of Post Offices within their respective jurisdictions, and any other officers of the Post Office specially deputed for that purpose or authorized on that behalf by the Post Master General, are empowered to examine the stock of postage stamps kept by any person so authorized.

Custody of Stamps in Local Depôts.

X.—The bulk of postage stamps in store at any local depôt shall be kept in parcels, containing a known number of sheets, in the treasury or other secure place, in one or more strong chests or presses, under double locks,—the key of one lock of each chest or press always remaining in the hands of the collector or other officer in charge of the stamps, and the key of the other in the hands of the treasurer.

XI.—The remainder of the stamps in store shall be in the hands of the treasurer, and shall not exceed the probable demand of fourteen days, estimated according to the average of former sales.

XII.—The treasurer shall keep a daily account of receipts and sales* in the vernacular of the district, in which the transactions of each succeeding day shall be entered consecutively, a balance being struck at the close of each day and attested by the initials of the officer in charge of the treasury.

* Form 8.

XIII.—On the first open day of each month, and on every Monday during the month, the treasurer shall prepare in the vernacular, and submit to the officer in charge of the postage stamps, an indent† for a supply of postage stamps for the following week. The indent, after being approved or altered by the officer in charge of the postage stamps, shall be signed by him, and complied with as directed in the following rule. The indent thus signed shall be the warrant for the issue of the stamps.

† Form 4.

XIV.—The officer in charge of the postage stamps shall cause the store under double locks to be opened, and the required number to be counted and delivered to the treasurer in his presence. A store-book‡ shall be kept in English, in which the number and value of the stamps delivered to the treasurer shall be entered, and a balance struck at the time of delivery. This balance will be attested by the initials of the officer in charge and of the treasurer, both of whom shall invariably be present during the whole time that the store under double locks, or any part of it, remains open. The deliveries shown in the store-book will agree with the indent as approved.

‡ Form 5.

XV.—If the treasurer require stamps at any intermediate time, the same process will be observed as is prescribed in the two preceding rules.

XVI.—Stamps will be supplied from the store under double locks only to the treasurer and to branch depôts, and on indent from them respectively. Sales should be made not out of store, but from the supply in the hands of the treasurer or the supply in branch depôts.

XVII.—As soon as possible after the arrival of a despatch of postage stamps from a central depôt, or from any other local depôt, the packets or boxes are to be opened, one at a time, in the presence of the officer in charge of stamps. The stamps contained in each box or packet are then to be immediately counted and compared with the invoice,§ which, after being receipted, will be returned by the first post to the depôt whence they were despatched. Unless the officer in charge of the stamps can certify that the stamps contained in any given packet or box were immediately counted by himself personally, or in his presence, he will be held responsible for the value of any that may be found deficient. The stamps are then to be placed in the store under double locks and entered in the store-books, and no stamps are to be delivered to the treasurer or sold to any party without being first brought into store.

§ Form 2.

XVIII.—Officers in charge of stamps will have the stamps in store, both those under double locks and those in the hands of the treasurer, counted in their presence on the last open day of September and March in each official year, and will certify having done so in the following terms at the foot of the monthly accounts of sales and stock‖ for those months furnished to the Superintendent of Stamps:—

‖ Form 6.

"I do hereby certify that I have personally counted the number of sheets of postage stamps of the value of four annas each and upwards in store on ——— 187 , and that their actual value is *——————————; and I also further certify that the number of complete sheets of postage stamps of a lower value than four annas each, in store on the same date, has been counted by the treasurer in my presence, and that their actual value is * ——————————; and I do further certify that, from the report of the treasurer made to me this day, the actual value of the stamps in his hands amounts to * ——————————; and that the rules prescribed by the orders of the Government of India, dated 19th March 1878, are duly observed."

Officer in charge of Stamps.

* NOTE.—The amounts to be entered in words as well as figures.

XIX.—On occasions of transfer of charge, postage stamps will be made over in the same manner, and under the same precautions, as the cash balance in the treasury.

XX.—The officer in charge of each local depôt will submit, within the first week of each month, an account† to the Superintendent of Stamps of his Presidency, showing the balance in hand at the sudder and branch treasuries at the close of the preceding month, and the sales effected during that month.

† Form 6.

Returns to be made by Central Depôt.

XXI.—The Superintendent of Stamps of each Presidency will, on the 15th of each month, in addition to any account required by the Accountant General, furnish the Director General of the Post Office with a memorandum‡ showing the number of stamps distributed by him during the preceding month; and at the close of each month he will also furnish another memorandum § showing the number and value of stamps in hand, and the total amount of the actual sales of each local depôt and of all the local depôts supplied by him.

Jan. 2nd..	43	12mo. ...	First ...	1,000	ditto ...	0 4 0	Ramdás Sharmmá ...	The writer ridicules the military aspirations of the so-called educated Bengalis who, though entirely devoid of courage and strength, are impatient of the abject condition of their country, and always in their speeches express their desire to rid it of foreign domination. The book is composed in blank verse, and the object apparently is to parody the versification of the late M. M. Dutt, who introduced a large number of new words and grammatical forms into the language. The writer refers throughout to the habits of drinking, the timidity, inaptitude for action, and love of speechifying, and the utter shallowness which characterise Bengalis.

Proceedings of the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations.

Saturday, the 13th April 1878.

Present:

The Hon'ble G. C. PAUL, *Advocate-General, presiding.*
The Hon'ble C. T. BUCKLAND,
The Hon'ble H. J. REYNOLDS,
The Hon'ble J. O'KINEALY,
The Hon'ble BABOO KRISTODAS PAL, RAI BAHADOOR,
The Hon'ble BABOO MOHINI MOHUN ROY,
The Hon'ble AMEER ALI,
and
The Hon'ble A. B. INGLIS.

NEW MEMBER.

The Hon'ble MR. INGLIS took his seat in Council.

CONSOLIDATION OF THE EXCISE LAWS.

The HON'BLE MR. REYNOLDS moved that the Bill to consolidate and amend the law relating to the Excise Revenue in the Presidency of Fort William in Bengal be further considered in order to the settlement of its clauses.

The motion was agreed to.

On the motion of the Hon'ble Mr. Reynolds a verbal alteration was made in section 4.

The Hon'ble Baboo Kristodas Pal moved the omission of the words "fresh or" after the word "tari" in line 3 of the definition of "fermented liquor" in the same section. The object of the Bill, he said, was to control and, if possible, prevent the use of intoxicating drinks and drugs. The acquisition of revenue was a secondary object; but the primary object was to prevent the consumption of intoxicating drinks and drugs. He believed the Council would agree with him that fresh tari could not be called a fermented liquor, and so the inclusion of the word "fresh" in this clause, in his humble judgment, was not consistent. He was aware that the word was used in the old law, but when it was being subjected to revision, if anything appeared in it which was incongruous or inconsistent, it ought to be corrected. He could not believe that any member of this Council would hold that fresh tari or palm-juice was intoxicating; if anything, it was the reverse; it was, indeed, a cooling, wholesome, medicinal beverage, and he could not conceive that the Government would wish to tax the consumption of such an unobjectionable drink. He was not aware until this moment that this drink was subject to an excise duty. But whether it was subject to duty or not, looking to the main object of the Bill, he considered that it was inconsistent to include fresh tari in the category of fermented liquor.

The Hon'ble Mr. Reynolds said he hoped the hon'ble member would not press the amendment, as he was unable to accept it. The object of the Bill was to consolidate the existing law; whereas the amendment before the Council, if carried, would effect a serious and important alteration of the law, and he thought that, before proposing it, the hon'ble member should be prepared with a more practical objection than the apparent incongruity of the existing provision. The Bill was substantially a re-production of Act XXI of 1856, and he had never heard a single complaint that the inclusion of fresh tari in the law had worked any hardship to the people. There was no intention to interfere vexatiously with the production and use of fresh tari, and if the hon'ble member referred to section 14, he would see that provision was made for dispensing with the operation of this clause where the consumption of tari in a fermented state was inconsiderable. But where the consumption was considerable, it was a very important matter that the Government should have certain powers of supervision and regulation over the production of the fresh tari, which became fermented by the lapse of a few hours of the day. He therefore hoped the Council would not agree to this amendment.

The Hon'ble Baboo Kristodas Pal said he was entirely in the hands of the Council, and was prepared to withdraw the amendment if the sense of the Council was against it. If it was considered objectionable to introduce any new matter in the Bill, because it was a consolidation measure, he thought it would be admitted that a provision of this kind had already been introduced by the clause which subjected wholesale vendors of intoxicating liquors in Calcutta to a license. Now, if the real objection to the amendment which he had proposed was that no substantial alteration of the law should be made in this Bill, then he did not think it quite consistent to introduce the provision to which he had just referred. But he believed it was open to the Council to consider the provisions of the old law with reference to the altered circumstances of the country, or in the light of any new considerations which experience might suggest. He had brought forward this amendment because he thought it was not consistent to define fresh tari as fermented liquor, because the two terms were not synonymous, and because to call "fresh" palm-juice "fermented" would be to ignore physical fact.

The Hon'ble the Advocate-General observed that it had been sufficiently explained to this Council that this was a Bill to consolidate and amend the laws relating to the manufacture, sale, and possession of exciseable articles, and to the collection of the revenue derived therefrom. Under the old law tari, although not fermented, was an exciseable article, and so section 4 of this Bill, which contained definitions, enacts that for the purposes of the Act, tari should be held to be a fermented liquor. The Council could not alter the nature of the article itself; it might very properly enact that a liquor

which by exposure to the sun for a few hours becomes an intoxicating drink should be placed in the category of fermented liquors. Therefore it struck him that although the objection which had been raised by the hon'ble mover of the amendment was ingenious, he thought that that objection, standing by itself, was an objection which ought not to be allowed. He thought also that an objection of this nature ought to have been laid before the Select Committee, in order to allow the members of the Government to consider it carefully. [The HON'BLE BABOO KRISTODAS PAL observed that he was not a member of the Select Committee]. The Council could not go into the matter without a further postponement, and as the amendment was of some importance and would affect the revenue, he thought it would be as well if the amendment were withdrawn and not put to the vote.

The motion was then by leave withdrawn.

The HON'BLE MR. REYNOLDS moved the addition to section 15 of the following words:—

"The Board may by rule define what shall be held to be an assortment for the purposes of this section.

"The Board may also determine what shall be a retail sale of any article from time to time declared by the Local Government to be included in the definition of intoxicating drugs under this Act."

The last clause of the section as it stood declared that the sale of an assortment of spirituous or fermented liquors in the quantity specified above, or in less quantity, by a licensed wholesale vendor, was prohibited. The special object of that clause was for the protection of retail vendors in order that those who had wholesale licenses might not have the power of selling in such a way as to interfere with the trade of retail vendors. The Select Committee considered the question whether they should define what should be considered an assortment of liquors, and found it difficult to come to any definite conclusion upon the point; and therefore they thought it expedient that the matter should be left to be defined by rules to be framed by the Board of Revenue.

The second clause of the amendment was to provide an accidental omission in the Bill. The Bill gave power to the Board to declare what should be a retail sale of any article declared by the Government to be fermented liquor; but as it did not give the same power as to intoxicating drugs, it seemed necessary to make provision for that also.

The motion was agreed to.

On the motion of the HON'BLE MR. REYNOLDS the second clause of section 17 was omitted, provision for the same object being made by an amendment to be moved in section 61.

In sections 18 and 27 amendments were made, on the motion of the HON'BLE MR. REYNOLDS, to supply an accidental omission; and at the end of the latter section he moved that the words "as if the said license and engagement had been formally renewed" be inserted. MR. REYNOLDS was not quite sure that these words were necessary. It had been suggested to him that, under the clause as it stood, licensees might possibly claim to hold during the period referred to without payment of any fees. It might be argued that the license remaining in force for such time as the Collector might think fit, no additional fee would be due; perhaps therefore it was well that the above-mentioned words should be added.

The motion was agreed to.

The HON'BLE BABOO KRISTODAS PAL moved that in section 29, line 7, for the words "breach of the peace or any other criminal offence" the words "non-bailable criminal offence" be substituted. He said that, as the section was worded, any breach of the peace would render a person holding a license liable to forfeiture of his license. It was not here provided that if any breach of the peace occurred between the license-holder and any other person on the premises of the licensee's shop, it would render the license liable to be cancelled; he understood that the conditions under which licenses were granted provided for such cases. But under this section a license-holder might be convicted of a breach of the peace anywhere, and he would be liable to forfeiture of his license. It could hardly be intended that for an offence of that sort a licensee should be subjected to the loss of a civil right. He thought that the object in view would be met if the punishment of

forfeiture of license were confined to cases in which a licensee was convicted of a non-bailable criminal offence.

The motion was agreed to.

On the motion of the HON'BLE MR. REYNOLDS, amendments of an unimportant nature were made in sections 31, 39, and 61.

Section 65 provided a fine of Rs. 500 upon every proprietor, farmer, tehsildar, gomashta, or other manager of land who authorizes or connives at the manufacture or sale of any exciseable articles by any unlicensed person.

The HON'BLE BABOO KRISTODAS PAL moved to insert the words "upon lands held by him from such proprietor, farmer, tehsildar, gomashta, or manager" after the words "unlicensed person." The object of section 65 was to define the responsibility of landholders in respect to the manufacture of any exciseable article. As the section was worded, it might be construed to include a proprietor whose land might not be leased out for the illicit manufacture of exciseable articles, and who might not have the opportunity of knowing of, or conniving at, the offence. The proprietor might be the landholder of a whole pergunnah; he might have let out his estate in farm to different individuals, one of which individuals (A) might allow a person to manufacture in an illicit manner any exciseable article under this Bill. Well, the actual proprietor not knowing anything, and not being in a position to know, and not having the power to interfere with the lessee of the land, BABOO KRISTODAS PAL did not think it would be just to include him in section 65, as the section in its present form would do. If it should be argued that, irrespective of the law, the immediate owner of the land upon which illicit manufacture was going on, should give notice, he admitted that it was clearly the duty of all classes to do so, and he did not see why a particular class should be singled out and made subject to a heavy liability. He could understand that a man who himself allowed his land to be used for an illicit purpose should be held responsible; but section 65 as worded was not confined to the immediate holder of the land.

The HON'BLE MR. BUCKLAND said he thought the amendment proposed was not absolutely necessary, and he was also afraid that this provision of the law had always been a dead letter. He had not heard of a case in which it was possible to find evidence of authority given by a proprietor of land for the illicit manufacture of exciseable articles, and as to connivance, it was very difficult to define what it meant. If the hon'ble member wished to press the amendment, he had no objection to offer.

The HON'BLE MR. REYNOLDS observed that he had no strong objection to the amendment, but he should prefer to retain the present wording of the section.

The HON'BLE THE ADVOCATE-GENERAL said, suppose a man let his land on the condition that this use should not be made of his land, and that if it was so used, he might re-enter into possession. Suppose that the land was so used and that he did not re-enter. Such conduct may be evidence of connivance. A Magistrate who convicted under this section must find that the proprietor or manager authorized or connived; a man who wilfully kept his eyes shut might be said to connive.

The motion was then put and negatived.

On the motion of the HON'BLE MR. REYNOLDS the words "or of Bengal Acts II and IV of 1866" (the Calcutta and Suburban Police Acts) were added to the saving clause at the end of the Bill.

The Bill was then passed.

The Council was adjourned *sine die*.

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h., 16h., and 22h.; the maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy, *w* dew, *t* thunder, *l* lightning, *p* passing temporary showers, *h* hail strong wind.

	Central Districts		
PRESIDENCY DIVN. 6	24-Pergunnahs. Apl. 27 '78	0·25	Weather—hot during the day; the nights are cool. The rains have done much good. The land is being prepared for sowing the early rice crop. 7	Nuddea, „ 27 „	1·66	Occasional storms with rain. There are no crops worth mentioning on the ground The weather has been most favorable for agricultural operations The price of coarse rice is from Rs. 3 to Rs 3-10 per maund. There is a good deal of cholera in parts of Chooadanga and in some other portions of the district.
8	Jessore, „ 27 „	2·42	Weather—cool for the season. The prospects of the crops have much improved by the recent rain. Sporadic cases of cholera are heard of, and cattle disease still exists at Khoolna

RAJSHAHYE AND COOCH BEHAR DIVNS. 10	Dinagepore, „ 26 „	0·82	Weather—cool and fair. The rain has improved the prospects of the rice crop
11	Rajshahye, „ 27 „	1 59	There has been some rain with hail-stones in parts of the district during the week. Fair rain fell in the Beauleah town on the 25th and on the evening of the 26th. The want of more rain for the crops is much felt, especially for the sowing of rice. All the standing crops, such as *dhan*, *til*, and jute, still require rain Much damage has been done to the crops in the jurisdiction of Bagmara station, owing to a very heavy hailstorm. The recent showers will assist cultivation. Cholera is reported from some of the stations.
12	Rungpore, „ 26 „	2 32	There was another hailstorm on the afternoon of the 22nd and a thunderstorm on the 25th The state and prospects of the crops continue to be favorable, and the recent rain has been very beneficial as regards farming operations. The price of food-grain continues to be the same as that prevailing last week. Cholera has nearly altogether disappeared, and the public health is good.

	Bogdogra ...	1·45	
	Kurigram .	3·07	
13	Bogra, „ 27 „	0·99	Weather—cool for the time of year There was a rather severe hailstorm on the evening of the 22nd instant. 16	Julpigoree, „ 27 „	1·03	Weather—more or less cloudy throughout the week, with storms of wind and rain. Rain has been reported almost every day at Buxa sub-division The *bhadoi dhan* crop promises well all over the district. It has been greatly benefitted by the rain which fell during the week. Cholera is reported prevalent in some of the Mech villages in the Dooars; also small-pox in Alipore thana. A few cases of cholera are also reported from the Head-quarters sub-divisional thanas and a few in and near the station.
	Cooch Behar, „ 25 „	0·97	Weather—cool and often cloudy. A very heavy storm passed over the north of the State on the night of the 22nd instant. The prospects of *bitri dhan* are good. The intervals of fine weather allow of the crop being properly weeded. Other crops are doing well. Rice is still very dear and shows no signs of falling. Tobacco sells at low prices. Public health is generally good, but a few cases of cholera have occurred.
	Dinhatta ...	0·7	
	Mathabhanga ...	1·28	
	Meckligunge ...	2·50	
	Eastern Districts.		
DACCA DIVN			
17	Dacca, Apl. 27 '78	0·8	Weather—warmer than previous week and seasonable. The state and prospects of the crops are very favorable. All crops on the ground look well, and the week has been favorable for sowing.
	Moonshegunge ...	0·28	
	Manickgunge ...	1·45	
18	Furreedpore, „ 27 „	1·91	Weather,—cool. More rain is required in Goalundo sub-division, but the general prospects of the crops are good. Prices are still very high. No serious outbreak of sickness is reported.
	Gôalundo ...	0·27	
	Madaripore ...	1·03	
19	Backergunge, „ 25 „	1·29	Weather—hot and close. Rain had not fallen in any quantity during the week, but there has been heavy rain since. The ploughings are going on fairly well. There has been cholera in many parts of the district, particularly in Motbaria and Mendigunge; otherwise the health is good.
20	Mymensingh, „ 26 „	2·63	Weather—unsettled. Thunderstorms at intervals with heavy rain and sometimes hail. The state and prospects of the crops are favorable. The rainfall has done much good.
21	Tipperah, „ 26 „	0·80	Weather—fair generally, with occasional storms. *Boro dhan* is nearly all reaped.
	Sub-division ..	1·05	The crop is a fair one. The sowings of *aus dhan* are nearly completed.
CHITTAGONG DIVS.			
22	Chittagong, „ 25 „	Few drops.	Weather—fine and hot. No change in the state of the crops since last report.
23	Noakholly, „ 25 „	1·74	Weather—seasonable A sharp storm, accompanied by heavy rain, passed over the station on the evening of the 23rd The cultivation of the early rice crop continues. Public health is good
24	Chittagong Hill Tracts, „ 23 „	0·8	Weather—very hot throughout the week. The burning of jooms is over. The joomias have begun to sow their early seedlings in their jooms. Rain is badly wanted for the *aus* paddy crop.
	Hill Tipperah, „ 24 „	0·44	There was a thunderstorm with rain on the night of the 22nd. The temperature has risen considerably *Boro* rice is being cut. In some parts of the district the sowing of the *aus* crop has begun.
BEHAR.			
PATNA DIVN.			
25	Patna, Apl. 27 '78	0·05	Weather—cool for the season of the year. Easterly winds prevailing. The *rubbee* harvest has now been gathered in and most of it threshed out. The outturn is on the whole by no means favorable. Frost, blight, caterpillars and hot westerly winds all combined to mar the favorable prospects of the early part of the year. Extensive exportations have kept prices from falling, and unless the rains be favorable, the outlook for next year will be gloomy indeed. The estimated outturn of the *rubbee* harvest in each sub-division is given below:—

	Cereals	Pulses.	Other crops.
Barrh	8	6	7
Behar	10	8	9
Sudder and Dinapore	6	2	6
District average ...	8	5	7

In Barrh and Behar there is no cause for anxiety. In the Sudder and Dinapore sub divisions the canal distributary and Gya railway work will, with such road cess works (chiefly turfing) as are to be done in the rains, provide sufficient relief to the laboring classes

26	Gya, „ 27 „	0·63	A severe and sudden storm of wind and rain lasted for about half an hour on the 24th; cloudy and muggy since. Maximum thermometer in the shade 106·3°. Last year's sugarcane has all been cut. The young crop in Jehanabad is reported to require rain. This, *cheena*, and cotton are the only crops now on the ground. The *rubbee* outturn is estimated at six annas in Aurungabad.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Contd.)			
PATNA.—(Continued.) 27	Shahabad Apl. 27 '78	Nil	Weather—cloudy and hot. Nothing new to report about the state and prospects of the crops.
28	Durbhunga. „ 27 „	0·11	There have been thunderstorms during the week which have cooled the air; but little rain, however, has fallen. The prices of food-grains, owing to the great exportation that has taken place, have reached a very high figure; but the bazars are well supplied. Public health is fairly good.
29	Muzufferpore, „ 27 „	0·11	Weather—cool and cloudy. The *cheena* and indigo crops have been improved by the late rain. The lands are being prepared for the *bhadoi* sowings. Public health is good.
30	Sarun, „ 27 „	Nil	Weather—hot and cloudy. Mornings are cool. East wind prevailing. The rain which fell last week has enabled the ryots to plough their lands to some extent for the *bhadoi* crops, but the lands are yet hard. The cold-weather crops have now been all reaped and gathered, and there is nothing on the ground, except cotton, *cheena*, sugarcane, *moong*, and indigo. Rain is much wanted. Public health is good.
31	Chumparun ...	.....	Return not received
BHAGULPORE DIVISION. 32	Monghyr, „ 27 „	Nil	Weather—hot, and storms threatening. There are only a Melon crop and a little millet on the ground. Prices remain very high owing to exportation, but some importations of rice have been made.
33	Bhagulpore „ 27 „	0·09	Weather—stormy, with easterly winds. The lands are being prepared for the *bhadoi* crops.
34	Purneah, „ 27 „	0·70	Weather—uncertain. There were symptoms of rain throughout the district, but the fall has been partial only. The *rubbee* crop has been gathered in. The estimates of outturn vary from the full sixteen annas to four annas. The crop has been a fair average one. The *bhadoi* and *aghani* ploughing and sowing are progressing. Cholera is on the decrease.
	Arrareah ...	2·46	
35	Maldah, „ 27 „	Nil	Nights and mornings are cool. Clouds with strong wind almost every evening. Rain is expected soon. *Boro dhan* is being reaped and the outturn is satisfactory. No other crops on the ground. So far, the mango crop promises well. Tillage for rice crop is in progress. No change to report in prices. Health is good.
36	Sonthal Perghs. „ 28 „	0·20	The recent rain has made the weather cooler. The state and prospects of the crops are unchanged. Small-pox has left Deoghur.
ORISSA.			
ORISSA DIVS. 37	Cuttack Apl. 27 '78	Nil	Weather—fine and very hot. The *dalua* crop is being harvested. Rain is much wanted, especially in Jajpore and Kendrapara, and at the latter place it is reported that all cultivation is arrested for want of rain. As the time of sowing the early rice crop is close at hand, this is causing much anxiety. Prices continue high. There is a great deal of sporadic cholera.
38	Pooree, „ 26 „	Nil	Weather—hot. Strong sea breeze. The early *dalua* rice is being harvested. The late *dalua* rice is not progressing well for want of rain. Ploughing for the next crop has stopped. Water in the tanks and wells is failing. Common rice sells at 11½ to 9 4/7 seers for a rupee. Exportation of rice appears to have decreased. Cholera is reported from some parts of the district.
39	Balasore, „ 26 „	1·18	The rainfall of the past two weeks has been most beneficial. Ploughing and sowing are proceeding briskly. Cholera has almost disappeared.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh. Apl. 26 '78	0·04	Weather—unsettled, variable and unseasonable. The *mohwa* crop will not exceed ten annas. No improvement in prospects. The lands are being prepared for the *bhadoi* crops. A few cases of sporadic cholera have been reported.
41	Lohardugga, „ 27 „	Traces of rain.	Weather—settled and comparatively cool. No crops on the ground. The outturn of *mohwa* is not now so good as it promised to be, the crop having been damaged by unfavorable weather. Rice all over the district is excessively dear. Small-pox is reported in Palamow sub-division.
42	Singbhoom, „ 26 „	0·06	Weather—very hot during the first half of the week, afterwards cloudy and stormy; cloudy and very threatening on the 26th. Everything is progressing satisfactorily. A few cases of cholera have been reported from the mofussil.
43	Manbhoom, „ 27 „	Nil	Weather—seasonable. Nothing new to report about the crops. There are two reports from the interior of distress. Local enquiry is being made and relief works will be started if need be. There is an uneasy feeling that owing to actual insufficiency of grain prices will rise so high in the month preceding the *gora dhan* harvest that distress on a pretty large scale will be felt. The Deputy Commissioner hopes, in communication with emigration agents, to arrange for families of distressed persons desirous of emigrating finding facility for doing so.
